THE BASIC FINANCIAL STATEMENTS
AND SUPPLEMENTAL INFORMATION

Superintendent and School Board
Claiborne County School District

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Claiborne County School District as of and for the year ended June 30, 2006, which collectively comprise the Claiborne County School District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Claiborne County School District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the Claiborne County School District, as of June 30, 2006, and the respective changes in financial position, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated February 16, 2007, on our consideration of Claiborne County School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis on pages 3 through 11 and the Budgetary Comparison Schedule and corresponding notes on pages 36 and 38 are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Claiborne County School District's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U. S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. In addition, the Schedule of Instructional, Administrative and Other Expenditures, Governmental Funds is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

**CLAIBORNE COUNTY SCHOOL DISTRICT
Management's Discussion and Analysis
For the Year Ended June 30, 2006**

The discussion and analysis of Claiborne County School District's financial performance provides an overall narrative review of the School District's financial activities for the year ended June 30, 2006. The intent of this discussion and analysis is to look at the School District's performance as a whole; readers should also review the financial statements and the notes to the basic financial statements and to enhance their understanding of the School District's financial performance. Information contained in this section is qualified by the more detailed information contained elsewhere in this district's financial statements, notes to financial statements and any accompanying materials. To the extent this discussion contains any forward-looking statements of the District's plans, objectives, expectations and prospects, the actual results could differ materially from those discussed herein.

Financial Highlights

- Total net assets increased \$222,658, which represents an 2.75% increase from fiscal year 2005.
- General revenues account for \$11,430,348 in revenue, or 76% of all revenues. Program specific revenues in the form of charges for services and grants and contributions accounted for \$3,636,021 or 24% of total revenues.
- The District had \$14,861,791 in expenses; only \$3,636,021 of these expenses were offset by program specific charges for services, grants and contributions. General revenues of \$11,430,348 were adequate to provide for these programs.
- Among major funds, the General Fund had \$10,680,708 in revenues and \$10,771,447 in expenditures, \$1,020,433 in other financing sources and \$527,255 in other uses. The General Fund's fund balance increased \$406,615 from the prior year. The increase was due primarily to an increase in operating transfers-in from other funds.
- Capital assets, net of accumulated depreciation, decreased by \$255,331 from the prior year. This decrease was due mainly to depreciation of the capital assets.
- Long-term debt increased by \$102,741 from the prior year. This increase was due to \$900,000 in Qualified Zone Academy Bond (QZAB) bond proceeds received during the year.

Overview of Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**CLAIBORNE COUNTY SCHOOL DISTRICT
Management's Discussion and Analysis
For the Year Ended June 30, 2006**

Government-wide financial statements - The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. These statements are prepared using the accrual basis of accounting and include all assets and liabilities.

The statement of net assets presents information on all the District's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal years.

The government-wide financial statements outline functions of the District that are principally supported by property taxes and intergovernmental revenues (governmental activities). The governmental activities of the District include instruction, support services, non-instructional, sixteenth section and interest on long-term liabilities.

The government-wide financial statements can be found in Exhibit A of this report.

Fund financial statements - A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds - Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's current financing requirements. Governmental Funds are reported using modified accrual accounting. This method of accounting measures cash and other assets that can be easily converted to cash. The governmental funds statements provide a detailed short-term view of the School District's operations.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's current financing decisions. Both the Governmental Fund Balance Sheet and the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. These reconciliations are in Exhibit C-1 and D-1, respectively of this report.

CLAIBORNE COUNTY SCHOOL DISTRICT
Management's Discussion and Analysis
For the Year Ended June 30, 2006

The District maintains individual governmental funds in accordance with the *Financial Accounting Manual for Mississippi Public School Districts*. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for all major funds. All other non-major funds are combined together and presented in these reports as other governmental funds.

The basic governmental fund financial statements can be found in Exhibit C and D of this report.

Fiduciary funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected in the government-wide financial statements because resources of those funds are not available to support the District's own programs. The accrual basis of accounting is used for fiduciary funds. The school district is responsible for ensuring that the assets reported in these funds are used for their intended purpose. The School District's fiduciary activities are presented in a separate Statement of Fiduciary Net Assets in Exhibit E.

Notes to the financial statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on page 18 through 34 this report.

Other information - In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's budget process.

The District adopts an annual operating budget for all governmental funds. A Budgetary Comparison Statement has been provided for the General Fund. This required supplementary information can be found on pages 36 - 37 of this report.

Additionally, a Schedule of Expenditures of Federal Awards is required by OMB Circular A-133 and can be found on pages 40 - 41 of this report.

Government-wide Financial Analysis

Net assets - Net assets may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$8,330,440 as of June 30, 2006.

By far the largest portion of the District's net assets \$4,260,578 reflects its investment in capital assets (e.g., land, buildings, building improvements, improvements other than buildings, mobile equipment, furniture and equipment, leased property under capital leases and construction in progress, less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to its students; consequently these assets are not available for future spending.

The District's financial position is a product of several financial transactions including the net result of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets and the depreciation of capital assets.

**CLAIBORNE COUNTY SCHOOL DISTRICT
Management's Discussion and Analysis
For the Year Ended June 30, 2006**

There were no significant changes in revenues and expenses from the prior year. Although there were significant percentage changes in certain revenue and expense classification the dollar amount of the changes were immaterial..

Governmental activities - The following table presents the cost of five major District functional activities: instruction, support services, non-instructional, sixteenth section, and interest on long-term debt. The table also shows each function's net cost (total cost less charges for services generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden that was placed on the State and District's taxpayers by each of these functions.

Net cost of governmental activities \$(11,225,770), was financed by general revenue, which is made up of primarily property taxes (\$4,533,597) and state revenue \$6,657,676.

Investment earnings accounted for \$20,876 of funding.

Sixteenth section sources accounted for 181,007 of funding.

Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds - The focus of the District's governmental funds is to provide information on current inflows, outflows and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

The financial performance of the District as a whole is reflected in its governmental funds. As the District completed the year, its governmental funds reported a combined fund balance of \$5,381,472, an increase of \$580,554 from the prior year due primarily from the proceeds of long term debt.

**CLAIBORNE COUNTY SCHOOL DISTRICT
Management's Discussion and Analysis
For the Year Ended June 30, 2006**

The General Fund is the principal operating fund of the District. The increase in fund balance in the General Fund for the fiscal year was \$402,439. The other major funds presented are the Hurricane Katrina Displaced Student Fund and the QZAB Capital Project Fund. The Hurricane Katrina Displaced Student Fund did not have a fund balance at year end and the increase in fund balance of \$863,800 in the QZAB Capital Projects Fund is due primarily because the loan proceeds were not expended at year end.

Budgetary Highlights

Over the course of the year, the District revised the annual operating budget.

- ◆ Budgeted amounts for revenues from local sources were increased due to increase receipts from special activities.
- ◆ Budgeted amounts for revenues from state sources were decreased due to a reduction of MAEP funds final allocation.
- ◆ Budgeted amounts for revenues from federal sources were increased due to a special education cluster grant and an increase in e-rate reimbursements.
- ◆ Budgeted amounts for instructions increased due to teachers raises and an increase in insurance.
- ◆ Budgeted amounts for support services decreased due to staff vacancies not filled and replacement of staffs at a lower pay rate.

A schedule showing the original and final budget amounts compared to the District's actual financial activity for the General Fund is provided in this report as required supplementary information.

Capital Assets and Debt Administration

Capital Assets - As of June 30, 2006, the District's total capital assets were \$15,337,155, including land, school buildings, buses, other school vehicles, and furniture and equipment. This amount represents an increase of \$117,079 from the previous year. Total accumulated depreciation as of June 30, 2006 was \$6,940,058, and total depreciation expense for the year was \$372,410, resulting in total net capital assets of \$8,397,097.

The District maintains a AAA insured rating with Standard and Poor's and an AAA insured rating with Moody's Investor Services.

Additional information of the District's long-term debt can be found in Note 6 of this report.

Current Issues

The Claiborne County School District is financially stable. The District is proud of its community support of the public schools.

The District has committed itself to financial excellence for many years. The millage has remained the lowest of all Districts. In addition, the District's system of financial planning, budgeting and internal financial controls are well regarded. The District plans to continue its sound fiscal management to meet the challenges of the future.

CLAIBORNE COUNTY SCHOOL DISTRICT
Notes to the Financial Statements
For the Year Ended June 30, 2006

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements of the school district have been prepared in conformity with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). GASB is the accepted standard-setting body for governmental accounting and financial reporting principles. The most significant of the school district's accounting policies are described below.

A. Financial Reporting Entity

For financial reporting purposes, the reporting entity includes all funds that are covered by the oversight responsibility of the school district's governing board. As defined by accounting principles generally accepted in the United States of America, the school district is considered a "primary government." The school district is governed by a five (5) member board to which each member was elected by the citizens of each defined county district.

B. Basis of Presentation

The school district's basic financial statements consist of government-wide statements, including a statement of net assets and statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-wide Financial Statements:

The Statement of Net Assets and Statement of Activities display information about the school district as a whole. They include all funds of the reporting entity except for fiduciary funds, if applicable. Governmental activities generally are financed through taxes, intergovernmental revenues and other nonexchange revenues.

The Statement of Net Assets presents the financial condition of the governmental activities of the school district at year-end. The government-wide Statement of Activities presents a comparison between direct expenses and program revenues for each function or program of the school district's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues, which are not classified as program revenues, are presented as general revenues of the school district, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the school district.

Fund Financial Statements:

Fund financial statements of the school district are organized into funds, each of which is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues and expenditures. Funds are organized into two major categories: governmental and fiduciary. An emphasis is placed on major funds within the governmental category.

CLAIBORNE COUNTY SCHOOL DISTRICT
Notes to the Financial Statements
For the Year Ended June 30, 2006

C. Measurement Focus and Basis of Accounting

In the government-wide Statement of Net Assets and Statement of Activities, governmental activities are presented using the economic resources measurement focus and the accrual basis of accounting as are the Fiduciary Fund financial Statements. Revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used, regardless of when the related cash flows take place. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Program revenues on the Statement of Activities consist primarily of state appropriations and federal awards.

In the fund financial statements, governmental funds are presented using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when "measurable and available". Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year end. Property taxes, state appropriations and federal awards associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported when due.

The school district reports the following major governmental funds:

General Fund - This is the school district's primary operating fund. It accounts for all financial resources of the school district, except those required to be accounted for in another fund.

Sixteenth Section Interest Fund - This fund is used to account for revenues and expenditures associated with sixteenth section land.

All other governmental funds not meeting the criteria established for major funds are presented in the other governmental column of the fund financial statements.

Additionally, the school district reports the following fund types:

GOVERNMENTAL FUNDS

Special Revenue Funds - Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted for specific expenditure purposes.

Capital Projects Funds - Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities.

Debt Service Funds - Debt Service Funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

CLAIBORNE COUNTY SCHOOL DISTRICT
Notes to the Financial Statements
For the Year Ended June 30, 2006

Permanent Funds - Permanent Funds are used to account for resources that are legally restricted to the extent that only earnings, and not the principal, may be used for purposes that support the district's programs.

FIDUCIARY FUNDS

Agency Funds - Agency Funds are used to report resources held by the district in a purely custodial capacity (assets equal liabilities) and do not involve measurement of results of operations.

D. Account Classifications

The account classifications used in the financial statements conform to the broad classifications recommended in the *Governmental Accounting, Auditing and Financial Reporting* as issued in 2005 by the Government Finance Officers Association and are consistent with the broad classifications recommended in *Financial Accounting for Local and State School Systems, 1990* issued by the U.S. Department of Education.

E. Encumbrances

An encumbrance system is not maintained to account for commitments resulting from approved purchase orders, work orders and contracts.

F. Cash and Cash Equivalents

The school district deposits excess funds in the financial institutions selected by the school board. State statutes specify how these depositories are to be selected.

Cash and cash equivalents consists of amounts on deposit in demand accounts and certificates of deposit with maturities of 12 months or less. Cash and cash equivalents are valued at cost.

G. Investments

The School district can invest its excess funds, as permitted by Section 29-3-113, Miss. Code Ann. (1972), in interest-bearing deposits or other obligations of the types described in Section 27-105-33, Miss. Code Ann. (1972), or in any other type investment in which any other agency, instrumentality or subdivision of the State of Mississippi may invest, except that 100% of said funds are authorized to be so invested.

For accounting purposes, certificates of deposit are classified as investments if they have a maturity greater than 12 months when acquired.

Investments are reported at fair value.

H. Inventories and Prepaid Items

Donated commodities are received from the USDA and are valued at USDA cost. Other inventories are valued at cost (calculated on the first-in, first-out basis).

CLAIBORNE COUNTY SCHOOL DISTRICT
Notes to the Financial Statements
For the Year Ended June 30, 2006

The costs of governmental fund type inventories are reported as expenditures when purchased.

Certain payments to vendors reflect cost applicable to future accounting periods and are recorded as prepaid items in both government-wide and governmental fund financial statements.

I. Capital Assets

Capital acquisition and construction are reflected as expenditures in Governmental Fund statements and the related assets are reported as capital assets in the governmental activities column in the government-wide financial statements.

Capital assets are reported at actual or estimated historical cost based on appraisals or deflated current replacement cost. Contributed assets are reported at estimated fair value at the time received.

Capitalization thresholds (dollar value above which asset acquisitions are added to the capital asset accounts) and estimated useful lives of capital assets are reported in the government-wide statements.

Depreciation is calculated on the straight-line basis for all assets, except land. The following schedule details those thresholds.

	Capitalization Policy	Estimated Useful Life
Land	\$ 0	0
Buildings	50,000	40 years
Building improvements	25,000	20 years
Improvements other than buildings	25,000	20 years
Mobile equipment	5,000	5-10 years
Furniture and equipment	5,000	3-7 years
Leased property under capital leases	*	*

(*) The threshold amount will correspond with the amounts for the asset classifications, as listed.
See Note 5 for details.

J. Long-term liabilities

Long-term liabilities are the unmatured principal of bonds, warrants, notes, or other forms of noncurrent or long-term general obligation indebtedness. Long-term liabilities are not limited to liabilities from debt issuances, but may also include liabilities on lease-purchase agreements and other commitments. In the government-wide Statement of Net Assets, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column. See Note 6 for details.

K. Interfund Transactions and Balances

Interfund transactions and balances are the result of timing differences between the date expenses/expenditures occur and the date payments are made.

CLAIBORNE COUNTY SCHOOL DISTRICT
Notes to the Financial Statements
For the Year Ended June 30, 2006

Short-term (due within one year) interfund loan receivables are reported as "due from other funds" and are considered available expendable resources. Noncurrent portions of long-term interfund loan receivables are reported as advances and are offset equally by a fund balance reserve account which indicates that they do not constitute expendable available financial resources and, therefore, are not available for appropriation.

Transfers are used to (a) move revenues from the fund that statute or budget requires to collect to the fund that statute or budget requires to expend them and to (b) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

Interfund receivables and payable between funds within governmental activities are eliminated in the Statement of Net Assets. See Note 4 for details for interfund transactions, including receivables and payables at year-end.

L. Equity Classifications

Government-wide Financial Statements:

Equity is classified as net assets and displayed in three components:

1. Invested in capital assets, net of related debt - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, constructions or improvement of those assets.
2. Restricted net assets - Consists of net assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
3. Unrestricted net assets - All other assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

Fund Financial Statements:

Governmental fund equity is classified as fund balance. Fund balance is further classified as reserved and unreserved, with unreserved classified as designated and undesignated.

Fund reserves are portions of fund equity that are legally segregated for a specific future use or are not available for current operations. Following is a description of fund reserves used by the district:

Reserved for unemployment benefits - An account that represents the fund balance of the unemployment revolving fund which is legally restricted for the payment of unemployment benefits.

Reserved for capital projects - An account that represents that portion of fund balance in the Capital Projects Fund which was legally restricted and not available for spending for any other purpose than that for which it is restricted.

CLAIBORNE COUNTY SCHOOL DISTRICT
Notes to the Financial Statements
For the Year Ended June 30, 2006

Reserved for debt service - An account that represents that portion of fund balance in the Debt Service Fund which was legally restricted and not available for spending for any other purpose than that for which it is restricted.

Reserved for forestry improvement purposes - An account that represents a portion of the fund balance that is legally restricted for improving sixteenth section forest lands.

Reserved for permanent fund purposes - An account that represents a portion of the fund balance that is legally restricted for investment purposes or borrowing by the school board for capital purposes.

Reserved for advances - An account used to offset advances recorded in the asset accounts since they do not constitute available spendable resources and are not a component of net current assets.

Reserved for inventory - An account that represents a portion of the fund balance which indicates that inventories do not represent available spendable resources even though they are a component of net current assets.

Reserved for prepaid items - An account that represents a portion of the fund balance which indicates that prepaid items do not represent available spendable resources even though they are a component of net current assets.

M. Property Taxes

Ad valorem property taxes are levied by the governing authority of the county on behalf of the school district based upon an order adopted by the school board of the school district requesting an ad valorem tax effort in dollars. Since the taxes are not levied and collected by the school district, the revenues to be generated by the annual levies are not recognized until the taxes are actually collected by the tax levying authority.

N. Mississippi Adequate Education Program Revenues

Revenues from the adequate education program are appropriated on a fiscal year basis and are recorded at the time the revenues are received from the State of Mississippi.

O. Compensated Absences

Employees of the school district accumulate sick leave at a minimum amount as required by state law or at a greater amount provided by school district policy. Some employees are allowed personal leave and/or vacation leave in accordance with school district policy. The district pays for unused leave for employees as required by Section 37-7-307(5), Miss Code Ann. (1972).

The liability for these compensated absences is recorded as long-term liabilities in the government-wide statements. The current portion of this liability is estimated based on historical trends. In the fund financial statements, governmental funds report the compensated absence liability payable from expendable available financial resources only if the payable has matured, for example an employee retires.

CLAIBORNE COUNTY SCHOOL DISTRICT
Notes to the Financial Statements
For the Year Ended June 30, 2006

NOTE 2 - CHANGES IN ACCOUNTING STANDARDS

As required, the School district has implemented Government Accounting Standards Board (GASB) Statement No. 42, *Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries* for the current fiscal year. This Statement requires governments to evaluate major events effecting capital assets to determine whether they are impaired. Such events include physical damage, changes in legal or environmental factors technology changes or obsolescence, changes in the manner or duration of use and construction stoppage. Appropriate note disclosures have been incorporated to comply with the requirements of this standard.

NOTE 3 - CASH AND CASH EQUIVALENTS, CASH WITH FISCAL

The district follows the practice of aggregating the cash assets of various funds to maximize cash management efficiency and returns. Restrictions on deposits and investments are imposed by statues as follows:

Deposits. The school board must advertise and accept bids for depositories no less than once every three years as require by Section 37-7-333, Miss. Code Ann. (1972). The collateral pledged for the school districts' deposits in financial institutions is held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5, Miss. Code Ann. (1972). Under this program, the entity's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Depository Insurance Corporation.

Investments. Section 29-3-113 and 37-59-43, Miss. code Ann. (1972), authorizes the school board to invest surplus funds in the types of investments authorized by Section 27-105-33(d) and (e), Miss. Code Ann. (1972). This section permits the following types of investments: (a) certificates of deposits and interest bearing accounts with qualified state depositories; (b) direct United States Treasury obligations; (b) United States Government agency, United States Government instrumentality or United States Government sponsored enterprise obligations, the principal and interest of which are fully guaranteed by the government or enumerated agency of the United States; (c) direct security repurchase agreements and reverse direct security repurchase agreements of any federal book entry of only those securities enumerated in (b) and (c) above; (e) direct obligations issued by the United States of America that are deemed to include securities of, or interest in, and open-end or closed-end any management type investment company or investment trust approved by the State Treasurer and the Executive Director of the Department of Finance and Administration. investment income on bond funds (Capital Projects), bond sinking funds (Debt Service Funds) and sixteenth section principal funds (Permanent Funds) must be credited to those funds. Investment income of \$100 or more of any fund must be credited to that fund. Amounts less than \$100 can be credited to the General Fund.

CLAIBORNE COUNTY SCHOOL DISTRICT
Notes to the Financial Statements
For the Year Ended June 30, 2006

Cash and Cash Equivalents

The carrying amount of the school district's deposits with financial institutions reported in the governmental funds and fiduciary funds was \$4,433,675 and \$1,197,932, respectively. The carrying amount of deposits reported in the government-wide financial statements was: Cash and Cash Equivalents - \$4,132,665 and Restricted Assets - \$410,609. The Restricted Assets represent the cash balance in the Sixteenth Section Principal Fund (Permanent Fund) which is legally restricted and may not be used for purposes that support the district's programs. The bank balance was \$5,655,278.

Custodial Credit Risk - Deposits. Custodial credit risk is defined as the risk that, in the event of a failure of a financial institutions, the district will not be able to recover deposits or collateral securities that are in the possession of an outside party. The district does not have a policy for custodial credit risk. However, the Mississippi State Treasurer manages that risk on behalf of the district. Deposits above FDIC coverage are collateralized by the pledging financial institutions trust department or agent in the name of the Mississippi State Treasurer on behalf of the district. As of June 30, 2006, none of the district's bank balance of \$5,655,278 was exposed to custodial credit risk.

Cash with Fiscal Agents

The carrying amount of the school district's cash with fiscal agents held by financial institutions was \$109,600.

CLAIBORNE COUNTY SCHOOL DISTRICT
Notes to the Financial Statements
For the Year Ended June 30, 2006

The following is a schedule by years of the total payments due on this debt:

Year Ending June 30	Principal	Interest	Total
2007	\$ 440,000	55,500	\$ 495,500
2008	450,000	42,960	492,960
2009	460,000	29,460	489,460
2010	<u>475,000</u>	<u>15,200</u>	<u>490,200</u>
Total	<u>\$ 1,825,000</u>	<u>143,120</u>	<u>\$ 1,968,120</u>

The amount of bonded indebtedness that can be incurred by the school district is limited by state statute. Total outstanding bonded indebtedness during a year can be no greater than 15% of the assessed value of the taxable property within such district, according to the then last completed assessment for taxation, unless certain conditions, as set forth in state statutes, have been met. As of June 30, 2006, the amount of outstanding bonded indebtedness was equal to 4% property assessments as of October 1, 2005. This debt will be retired from Claiborne County School Bond Fund.

On April 1, 2005, the district issued \$2,245,000 in general obligation refunding bonds with an average interest rate of 2.88 percent to advance refunds \$2,180,000 of outstanding general obligations bonds with various interest rates. The net proceeds of \$2,180,000 after payment of \$22,450 for issuance costs were deposited in an irrevocable trust with an escrow agent to provide for all future debt payment requirements on the 1993 general obligation bonds.

As a result, the 1993 general obligation bonds are considered to be defeased and the liability for those bonds certificates has been removed from long-term liabilities.

The district advance refunded the \$3,920,000 to reduce its total debt service payments over the remaining five years of the debt by approximately \$82,968 and to obtain a gain of \$40,824

B. Limited obligation bonds payable

Limited obligation bonds are direct obligations and pledge the full faith and credit of the school district. Limited obligation bonds currently outstanding are as follows:

Total	<u>\$ 1,895,000</u>	<u>394,590</u>	<u>\$ 2,289,590</u>

The state aid capital improvement bonds are secured by an irrevocable pledge of certain revenues the district receives from the State of Mississippi pursuant to the Mississippi Accountability and Adequate Education Program Act, Sections 37-151-1 through 37-151-7, Miss. Code Ann. (1972). The state aid capital improvement bonds are not included in the computation of the debt limit percentage. This debt will be retired from Claiborne County School Debt Bond Fund.

C. Obligations under capital leases

The school district has entered into lease agreement that qualifies as capital lease for accounting purposes. Leased property under capital lease is composed of telephone equipment, surveillance equipment and school buses.

Upon written notice to the lessor, the lessee has the option of repaying the total amount due as set forth be the agreement.

The following is a schedule by years of the total payments due on this debt:

Year Ending June 30	Principal	Interest	Total

This debt will be retired from the District's Debt Service Fund.

E. Compensated absences payable

As more fully explained in Note 1(O), compensated absences payable is adjusted on an annual basis as required by Section 37-7-307(5), Miss. Code Ann. (1972). Compensated absences will be paid from the fund from which the employees' salaries were paid.

NOTE 7 - DEFINED BENEFIT PENSION PLAN

Plan Description. The school district contributes to the Public Employees' Retirement System of Mississippi (PERS), a cost-sharing multiple-employer defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by state law and may be amended only by the State of Mississippi Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Public Employees' Retirement System of Mississippi, PERS Building, 429 Mississippi Street, Jackson, MS 39201 or by calling (601) 359-3589 or 1-800-444- PERS.

CLAIBORNE COUNTY SCHOOL DISTRICT
Notes to the Financial Statements
For the Year Ended June 30, 2006

Funding Policy. PERS members are required to contribute 7.25% of their annual covered salary and the school district is required to contribute at an actuarially determined rate. The current rate is 9.75% of annual covered payroll. The contribution requirements of PERS members and employers are established and may be amended only by the State of Mississippi Legislature. The school district's contributions to PERS for the fiscal years ending June 30, 2006, 2005, and 2004 were \$875,413, \$840,057, and \$821,209, respectively, which equalled the required contributions for each year.

NOTE 8 - SIXTEENTH SECTION LANDS

Sixteenth section school lands, or lands granted in lieu thereof, constitute property held in trust for the benefit of the public schools. The school board, under the general supervision of the Office of the Secretary of State, has control and jurisdiction of said school trust lands and of all funds arising from any disposition thereof. It is the duty of the school board to manage the school trust lands and all funds arising therefrom as trust property. Accordingly, the board shall assure that adequate compensation is received for all uses of the trust lands, except for uses by the public schools. The following are the future rental payments to be made to the school district for the use of the school trust lands. These future rental payments are from existing leases and do not anticipate renewals or new leases.

NOTE 10 - LITIGATION

The following cases were outstanding against the Claiborne County School District at June 30, 2006:

1. Shawn Claiborne and Lula Claiborne Individually and as Parents and Natural Guardian of Shaun Barnes, a minor v. Claiborne County School District

This is an action pending in Circuit court of Claiborne County, Mississippi where personal injuries were allegedly sustained as a result of being struck by another student with a brick. The school district's insurance carrier denied coverage. Sanders Law Firm filed an Answer and Cross Claim against the insurance carrier on behalf of the school district January 30, 2007. A bench trial is set for May, 2007.

2. Denise Sims v. Claiborne County School District

This is an action pending where personal injuries were allegedly sustained as a result of a slip and fall incident on or around September, 2006. The purported fall occurred as a result of the failure to properly maintain the stands during an event at the high school. The matter is being handled by the School District's insurance carrier.

3. Katrice Thompson, as Mother and next Friend of Kashira Thompson Monore v. Joyce Weddington and the Claiborne County Public School District

This is an action pending in the Circuit Court of Claiborne county, Mississippi where personal injuries were sustained as a result of a student's attempt to snatch a pencil, causing a facial laceration to the Plaintiff's child. The complaint also alleges that the teacher failed to report the incident or seek medical attention for the child. An Answer and Cross Claim have been filed January 30, 2007, on behalf of the school district.

NOTE 11 - RISK MANAGEMENT

The school district is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Except as described below, the district carries commercial insurance for these risks. Settled claims resulting from these insured risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

NOTE 11 - RISK MANAGEMENT (Continued)

Participation in Public Entity Risk Pool

The school district is a member of the Mississippi School Boards Association Workers' Compensation Trust (MSBAWCT). The trust is a risk-sharing pool; such a pool is frequently referred to as a self-insurance pool. The trust consists of approximately 119 school districts and covers risks of loss arising from injuries to the school district's employees. The Mississippi Workers' Compensation Commission requires that an indemnity agreement be executed by each member in a workers' compensation self-insurance pool for the purpose of jointly and severally binding the pool and each of the employers comprising the group to meet the workers' compensation obligations of each member. Each member of MSBAWCT contributes quarterly to a fund held in trust by BancorpSouth bank in Jackson. The funds in the trust account are used to pay any claim up to \$500,000. For a claim exceeding \$500,000, MSBAWCT has insurance which will pay the excess up to \$25,000,000. If total claims during a year were to deplete the trust account, then the member school districts would be required to pay for the deficiencies. The district has not had an additional assessment for excess losses incurred by the pool.

CLAIBORNE COUNTY SCHOOL DISTRICT

REPORTS ON INTERNAL CONTROL AND COMPLIANCE

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Superintendent and School Board
Claiborne County School District

We have audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Claiborne County School District as of and for the year ended June 30, 2006, which collectively comprise the Claiborne County School District's basic financial statements and have issued our report thereon dated February 16, 2007. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

In planning and performing our audit, we considered the school district's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We did not note any matters involving internal control over financial reporting and its operation that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the school district's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests did not disclose any instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*. However, we noted a certain immaterial instance of noncompliance or other matters that we have reported to management of the school district in a separate letter dated February 16, 2007, which is included in this report.

This report is intended solely for the information and use of the school board and management, entities with accreditation overview, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO EACH MAJOR PROGRAM
AND INTERNAL CONTROL OVER
COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Superintendent and School Board
Claiborne County School District

Compliance

We have audited the compliance of the Claiborne County School District with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2006. The school district's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the school district's management. Our responsibility is to express an opinion on the school district's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the school district's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the school district's compliance with those requirements.

In our opinion, Claiborne County School District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2006.

Internal Control Over Compliance

The management of the Claiborne County School District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the school district's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We did not note any matters involving internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the school board and management, entities with accreditation overview, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH
STATE LAWS AND REGULATIONS

Superintendent and School Board
Claiborne County School District

We have audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Claiborne County School District as of and for the year ended June 30, 2006, which collectively comprise the Claiborne County School District's basic financial statements, and have issued our report thereon dated February 16, 2007. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the Standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Section 37-9-18(3), Miss Code Ann. (1972), states in part, " the auditor shall test to insure that the school district is complying with the requirements of Section 37-61-33(a)(iii), Miss. Code Ann. (1972), relating to classroom supply funds". As required by the state legal compliance audit program prescribed by the Office of the State Auditor, we have also performed procedures to test compliance with certain other state laws and regulations. However, providing an opinion on compliance with all state laws and regulations was not an objective of our audit and, accordingly, we do not express such an opinion.

The results of our procedures performed to test compliance with the requirements of Section 37-61-33(a)(iii), Miss. Code Ann. (1972), disclosed no instances of noncompliance. The district reported \$109,816 of class room supply funds carried over from previous years.

The results of procedures performed to test compliance with certain other state laws and regulations and our audit of the financial statements disclosed the following immaterial instance of noncompliance with other state laws and regulations. Our finding and recommendation and your response are as follows:

Finding

Surety bonds were not obtained for one principal and the Business Manager as required by state law.

Recommendation

The district should comply with section 37-9-31 and 37-39-21, Miss. Code Ann. (1972), which requires surety bond coverage for all principals and purchasing agents.

School District's Response

State law requires that principals and purchasing agents are bonded. One principal was not bonded as required. All required bonds have been secured and will be maintained as required by state law.

State law requires that purchasing agents are bonded. There is no specific requirements that business managers are bonded, unless they serve in the capacity of purchasing agent for the school district. The superintendent serves as purchasing agent for this school district and was appropriately bonded as such. The business manager is not a purchasing agent, and therefore is not required by state law to be bonded. Though not required by law to do so, the school district has obtained a surety bond for its business manager and will maintain it.

The school district will comply with section 37-39-21, Miss. Code Ann. (1972), which requires that surety bond coverage for all principals and purchasing agents.

The office of the State auditor or a public accounting firm will review, on the subsequent year's audit engagement, the finding in this report to insure that corrective action has been taken.

This report is intended solely for the information and use of the school board and management, entities with accreditation overview, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.
