**INDEPENDENT AUDITORS' REPORT
ON THE BASIC FINANCIAL STATEMENTS
AND SUPPLEMENTAL INFORMATION**

Superintendent and School Board
Holly Springs School District

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Holly Springs School District as of and for the year ended June 30, 2006, which collectively comprise the Holly Springs School District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Holly Springs School District's management. Our responsibility is to express opinions on these financial statements based on our audit.

Except as discussed in the following paragraph, we conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The school district did not maintain adequate subsidiary records documenting the completeness, existence, and valuation of the capital assets, net, reported on the Statement of Net Assets at \$9,289,327, as of June 30, 2006. Accordingly, we were unable to satisfy ourselves as to the fair presentation of capital assets and related transactions of the governmental activities.

In our opinion, except for the effects of such adjustments, if any, as might have been determined to be necessary had we been able to examine adequate capital assets subsidiary records as described in the preceding paragraph, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the Holly Springs School District, as of June 30, 2006, and the respective changes in financial position, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated August 30, 2007, on our consideration of the Holly Springs School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis on pages 6 through 14 and the Budgetary Comparison Schedule and corresponding notes on pages 41 through 44 are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquires of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Holly Springs School District's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. In addition, the Schedule of Instructional, Administrative and Other Expenditures - Governmental Funds is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

**HOLLY SPRINGS SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2006**

The discussion and analysis of Holly Springs School District's financial performance provides an overall narrative review of the School District's financial activities for the year ended June 30, 2006. The intent of this discussion and analysis is to look at the School District's performance as a whole; readers should also review the notes to the basic financial statements and the financial statements to enhance their understanding of the School District's financial performance. Information contained in this section is qualified by the more detailed information contained elsewhere in this district's financial statements, notes to financial statements and any accompanying materials. To the extent this discussion contains any forward-looking statements of the district's plans, objectives, expectations and prospects, the actual results could differ materially from those discussed herein.

FINANCIAL HIGHLIGHTS

- Total net assets decreased \$99,961 which represents a 1% decrease from fiscal year 2005. Of this, \$26,219 was due to a prior period adjustment. Total net assets for 2005 increased \$19,503, which represents a 0% increase from fiscal year 2004.
- General revenues account for \$10,897,080 and \$10,066,659 in revenue, or 76% and 74% of all revenues for fiscal years 2006 and 2005, respectively. Program specific revenues in the form of charges for services and grants and contributions accounted for \$3,509,453 or 24% of total revenues for 2006 and \$3,398,650 or 25% of total revenues for 2005.
- The District had \$14,532,713 and \$13,445,806 in expenses for fiscal years 2006 and 2005; only \$3,509,453 for 2006 and \$3,398,650 for 2005 of these expenses were offset by program specific charges for services, grants and contributions. General revenues of \$10,897,080 for 2006 and \$10,066,659 for 2005 were adequate to provide for these programs.
- Among major funds, the General Fund had \$10,641,978 in revenues and \$10,140,878 in expenditures for 2006 and \$9,766,086 in revenues and \$9,458,545 in expenditures for 2005. The General Fund's fund balance decreased \$72,113 from 2005 and decreased \$205,159 from 2004.
- Capital assets, net of accumulated depreciation, decreased by \$238,837 for 2006 and decreased by \$125,928 for 2005.
- Long-term debt decreased by \$361,813 for 2006 and \$415,890 for 2005.

OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. These statements are prepared using the accrual basis of accounting and include all assets and liabilities.

The statement of net assets presents information on all the District's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal years.

The government-wide financial statements outline functions of the District that are principally supported by property taxes and intergovernmental revenues (governmental activities). The governmental activities of the District include instruction, support services, non-instructional and interest on long-term liabilities.

The government-wide financial statements can be found on pages 16 - 17 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's current financing requirements. Governmental Funds are reported using modified accrual accounting. This method of accounting measures cash and other assets that can be easily converted to cash. The Governmental Funds Statements provide a detailed short-term view of the school district's operations.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's current financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. These reconciliations are on pages 18 and 20, respectively.

The District maintains individual governmental funds in accordance with the *Financial Accounting Manual for Mississippi Public School Districts*. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for all major funds. All other non-major funds are combined together and presented in these reports as other governmental funds.

The basic governmental fund financial statements can be found on pages 18 - 20 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected in the government-wide financial statements because resources of those funds are not available to support the District's own programs. The accrual basis of accounting is used for fiduciary funds. The school district is responsible for ensuring that the assets reported in these funds are used for their intended purpose. The school district's fiduciary activities are presented in separate Statement of Fiduciary Net Assets on page 22.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 23 - 40 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's budget process.

The District adopts an annual operating budget for all governmental funds. A budgetary comparison statement has been provided for the General Fund and each additional major special revenue fund. This required supplementary information can be found on pages 41 - 44 of this report.

Additionally, a schedule of expenditures of Federal Awards is required by OMB Cir. A-133 and a schedule of instructional, administrative and other expenditures for governmental funds can be found on pages 46 - 48 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net assets. Net assets may serve over time as a useful indicator of government's financial position. In the case of the District, assets exceeded liabilities by \$7,101,443 as of June 30, 2006 and by \$7,201,404 as of June 30, 2005.

A large portion of the District's net assets (59% for 2006 and 57% for 2005) reflects its investment in capital assets (e.g., land, buildings, building improvements, improvements other than buildings, mobile equipment, and furniture and equipment), less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to its students; consequently these assets are not available for future spending.

The District's financial position is a product of several financial transactions including the net result of activities, the payment of debt, the acquisition and disposal of capital assets and the

depreciation of capital assets.

The following table presents a summary of the District's net assets for the fiscal years ended June 30, 2006 and 2005.

There were no significant current year transactions that had an impact on the Statement of Net Assets.

Changes in net assets. The District's total revenues for the fiscal year ended June 30, 2006 and 2005 were \$14,406,533 and \$13,465,309, respectively. The total cost of all programs and services was \$14,532,713 and \$13,445,806 for 2006 and 2005, respectively. The following table presents a summary of the changes in net assets for the fiscal years ended June 30, 2006 and 2005.

Governmental activities. The following table presents the cost of four major District functional activities: instruction, support services, non-instructional and interest on long-term debt. The table also shows each function's net cost (total cost less charges for services generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden that was placed on the State and District's taxpayers by each of these functions.

- Net cost of governmental activities (\$11,023,260 for 2006 and \$10,047,156 for 2005), was financed by general revenue, which is made up of primarily property taxes (\$2,487,179 for 2006 and \$2,463,005 for 2005) and state revenue (\$8,192,530 for 2006 and \$7,490,263 for 2005).

- Investment earnings accounted for \$81,357 and \$52,480 of funding for 2006 and 2005, respectively.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the District's governmental funds is to provide information on current inflows, outflows and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

The financial performance of the District as a whole is reflected in its governmental funds. As the District completed the year, its governmental funds reported a combined fund balance of \$3,016,205 for 2006, a decrease of \$227,935 from 2005, and \$3,244,140 for 2005, a decrease of \$352,784 from 2004. \$2,630,373 or 87% for 2006 and \$3,110,318 or 96% for 2005 of the fund balance constitutes unreserved and undesignated fund balance, which is available for spending at the District's discretion. The remaining fund balance of \$385,832 or 13% for 2006 and \$133,822 or 4% for 2005 is reserved or designated to indicate that it is not available for spending because it has already been committed. The areas of commitment are as follows:

	2006	2005
Inventory	\$ 23,849	\$ 20,599
Advances	-0-	62,078
Unemployment Benefits	37,470	42,065
Debt Service	245,572	241,052
Special Revenue	48,447	188,660
Prepaid Items	30,494	9,080
Total assets	<u>\$ 385,832</u>	<u>\$ 563,534</u>

The General Fund is the principal operating fund of the District. The decrease in fund balance in the General Fund was \$72,113 for 2006 and the decrease in fund balance was \$205,159 for 2005. The fund balance of Other Governmental Funds showed a decrease for 2006 and 2005.

BUDGETARY HIGHLIGHTS

Over the course of the year, the District revised the annual operating budget.

A schedule showing the original and final budget amounts compared to the District's actual financial activity for the General Fund and other major funds is provided in this report as required supplementary information.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets. The District's total capital assets were \$13,608,786 for 2006 and \$13,503,158, for 2005, including land, school buildings, buses, other school vehicles and furniture and equipment. These amounts represent an increase of \$105,628 from 2005 and \$406,357 from 2004. Total accumulated depreciation was \$4,319,459 for 2006 and \$3,974,994 for 2005. Total depreciation expense was \$351,368 for 2006 and \$362,870 for 2005, resulting in total net assets of \$9,289,327 for 2006 and \$9,528,164 for 2005.

Additional information of the District's capital assets can be found in Note 5 on page 34 of this report.

Debt Administration. At June 30, 2006, the District had \$5,127,423 in general obligation bonds and other long-term debt outstanding, of which \$405,000 is due within one year.

The District maintains a AAA/Stable bond rating with Stand & Poor's.

Additional information of the District's long-term debt can be found in Note 6 on page 35 of this report.

CURRENT ISSUES

The Holly Springs School District is financially stable. The District is proud of its community support of the public schools.

The District has committed itself to financial excellence for many years. The millage has decreased .03 mills over the past three years. In addition, the District's system of financial planning, budgeting and internal financial controls is well regarded. The District plans to continue its sound fiscal management to meet the challenges of the future.

Latest enrollment figures indicate that student enrollment in the District will grow by approximately 40 students. The budget for the next fiscal year has taken into account this expected growth in both funding and staffing needs.

Net Change in Fund Balances - Governmental Funds	\$ (237,830)
Amounts reported for governmental activities in the statement of activities are different because:	
1. Governmental funds report capital outlays as expenditures while governmental activities report depreciation to allocate those expenditures over the life of the assets. Capital asset purchases amounted to \$87,679 and the depreciation expense amounted to \$351,368.	(263,689)
2. Payment of principal on long-term liabilities is reported as an expenditure in the governmental funds, but the payment reduces long-term liabilities in the statement of net assets.	385,000
3. In the statement of activities, only gains and losses from the sale of capital assets are reported, whereas in the governmental funds, proceeds from the sale of capital assets increase financial resources and losses from the sale of capital assets decrease financial resources. Thus, the change in net assets differs from the change in fund balances by the amount of the loss of \$1,367 and the proceeds from the sale of \$0 in the current period.	(1,367)
4. Governmental funds report interest on long-term debt when due, whereas the statement of activities recognizes it as it accrues, regardless of when the financial resources are available. Accrued interest at year end was \$76,666 which is a decrease from last year.	4,998
5. Governmental funds do not recognize transactions that are not normally paid with expendable available resources. The statement of activities reports expenses and liabilities regardless of when financial resources are available. Compensated absences increased to \$57,423.	(23,187)
6. Increase in inventory is reported as an adjustment to fund balance in the governmental funds, but noninstructional expenditures are decreased in the statement of activities.	<u>9,895</u>

**HOLLY SPRINGS SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2006**

Note 1: Summary of Significant Accounting Policies

The accompanying financial statements of the school district have been prepared in conformity with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). GASB is the accepted standard-setting body for governmental accounting and financial reporting principles. The most significant of the school district's accounting policies are described below.

A. Financial Reporting Entity

For financial reporting purposes, the reporting entity includes all funds that are covered by the oversight responsibility of the school district's governing board. As defined by accounting principles generally accepted in the United States of America, the school district is considered an "other stand-alone government." The school district is a related organization of, but not a component unit of, the city of Holly Springs since the governing authority of the city selects a majority of the school district's board but does not have financial accountability for the school district.

B. Basis of Presentation

The school district's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-wide Financial Statements

The Statement of Net Assets and Statement of Activities display information about the school district as a whole. They include all funds of the reporting entity except for fiduciary funds, if applicable. Governmental activities generally are financed through taxes, intergovernmental revenues and other nonexchange revenues.

The Statement of Net Assets presents the financial condition of the governmental activities of the school district at year-end. The government-wide Statement of Activities presents a comparison between direct expenses and program revenues for each function or program of the school district's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the school district, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the school district.

FOR THE YEAR ENDED JUNE 30, 2006**

Note 1: Summary of Significant Accounting Policies (Continued)

Fund Financial Statements

Fund financial statements of the school district are organized into funds, each of which is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues and expenditures. Funds are organized into two major categories: governmental and fiduciary. An emphasis is placed on major funds within the governmental category.

C. Measurement Focus and Basis of Accounting

In the government-wide Statement of Net Assets and Statement of Activities, governmental activities are presented using the economic resources measurement focus and the accrual basis of accounting, as are the Fiduciary Funds financial statements. Revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used, regardless of when the related cash flow takes place. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Program revenues on the Statement of Activities consist primarily of state appropriations and federal awards.

In the fund financial statements, governmental funds are presented using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when "measurable and available". Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year end. Property taxes, state appropriations and federal awards associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported when due.

The school district reports the following major governmental funds:

General Fund - This is the school district's primary operating fund. It accounts for all financial resources of the school district, except those required to be accounted for in another fund.

**HOLLY SPRINGS SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
FOR THE YEAR ENDED JUNE 30, 2006**

Note 1: Summary of Significant Accounting Policies (Continued)

School Food Service Fund - This is the school district's fund for accounting for the food service operation of the school for the regular school year.

All other governmental funds not meeting the criteria established for major funds are presented in the other governmental column of the fund financial statements.

Additionally, the school district reports the following fund types:

GOVERNMENTAL FUNDS

Special Revenue Funds - Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted for specific expenditure purposes.

Debt Service Funds - Debt Service Funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

FIDUCIARY FUNDS

Agency Funds - Agency Funds are used to report resources held by the district in a purely custodial capacity (assets equal liabilities) and do not involve measurement of results of operations.

D. Account Classifications

The account classifications used in the financial statements conform to the broad classifications recommended in *Governmental Accounting, Auditing, and Financial Reporting* issued in 2005 by the Government Finance Officers Association and are consistent with the broad classifications recommended in *Financial Accounting for Local and State School Systems, 1990* issued by the U.S. Department of Education.

E. Encumbrances

An encumbrance system is not maintained to account for commitments resulting from approved purchase orders, work orders and contracts.

Note 1: Summary of Significant Accounting Policies (Continued)

F. Cash and Cash Equivalents

The school district deposits excess funds in the financial institutions selected by the school board. State statutes specify how these depositories are to be selected.

Cash and cash equivalents consist of amounts on deposit in demand accounts and certificates of deposit with maturities of 3 months or less. Cash and cash equivalents are valued at cost.

G. Investments

The school district can invest its excess funds, as permitted by Section 29-3-113, Miss. Code Ann. (1972), in interest-bearing deposits or other obligations of the types described in Section 27-105-33, Miss. Code Ann. (1972), or in any other type investment in which any other agency, instrumentality or subdivision of the state of Mississippi may invest, except that 100% of said funds are authorized to be so invested.

For accounting purposes, certificates of deposit are classified as investments if they have a maturity greater than 12 months when acquired.

Investments are reported at fair value.

H. Inventories and Prepaid Items

Donated commodities are received from the USDA and are valued at USDA cost. Other inventories are valued at cost (calculated on the first-in, first-out basis).

The costs of governmental fund type inventories are reported as expenditures when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and governmental fund financial statements.

I. Capital Assets

Capital acquisition and construction are reflected as expenditures in the Governmental Fund statements and the related assets are reported as capital assets in the governmental activities column in the government-wide financial statements.

**HOLLY SPRINGS SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
FOR THE YEAR ENDED JUNE 30, 2006**

Note 1: Summary of Significant Accounting Policies (Continued)

Capital assets are reported at actual or estimated historical cost based on appraisals or deflated current replacement cost. Contributed assets are reported at estimated fair value at the time received.

Capitalization thresholds (dollar value above which asset acquisitions are added to the capital asset accounts) and estimated useful lives of capital assets are reported in the government-wide statements.

Depreciation is calculated on the straight-line basis for all assets, except land. The following schedule details those thresholds.

	<u>Capitalization Policy</u>	<u>Estimated Useful Life</u>
Land	\$ 0	0
Buildings	50,000	40 years
Building improvements	25,000	20 years
Improvements other than buildings	25,000	20 years
Mobile equipment	5,000	5-10 years
Furniture and equipment	5,000	3-7 years
Leased property under capital leases	*	*

(*) The threshold amount will correspond with the amounts for the asset classifications, as listed. See Note 5 for details.

J. Long-term Liabilities

Long-term liabilities are the unmatured principal of bonds, warrants, notes, or other forms of noncurrent or long-term general obligation indebtedness. Long-term liabilities are not limited to liabilities from debt issuances, but may also include liabilities on lease-purchase agreements and other commitments. In the government-wide Statement of Net Assets, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column. See Note 6 for details.

K. Interfund Transactions and Balances

Interfund transactions and balances are the result of timing differences between the date expenses/expenditures occur and the date payments are made.

**HOLLY SPRINGS SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
FOR THE YEAR ENDED JUNE 30, 2006**

Note 1: Summary of Significant Accounting Policies (Continued)

Short-term (due within one year) interfund loan receivables are reported as “due from other funds” and are considered available expendable resources.

Transfers are used to (a) move revenues from the fund that statute or budget requires to collect to the fund that statute or budget requires to expend them and to (b) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

Interfund receivables and payables between funds within governmental activities are eliminated in the Statement of Net Assets. See Note 4 for details for interfund transactions, including receivables and payables at year-end.

L. Equity Classifications

Government-wide Financial Statements

Equity is classified as net assets and displayed in three components:

1. Invested in capital assets, net of related debt - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, constructions or improvement of those assets.
2. Restricted net assets - Consists of net assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
3. Unrestricted net assets - All other net assets that do not meet the definition of “restricted” or “invested in capital assets, net of related debt.”

Fund Financial Statements

Governmental fund equity is classified as fund balance. Fund balance is further classified as reserved and unreserved, with unreserved classified as designated and undesignated.

Fund reserves are portions of fund equity that are legally segregated for a specific future use or are not available for current operations. Following is a description of fund reserves used by the district:

**HOLLY SPRINGS SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
FOR THE YEAR ENDED JUNE 30, 2006**

Note 1: Summary of Significant Accounting Policies (Continued)

Reserved for debt service - An account that represents that portion of fund balance in the debt service fund which was legally restricted and not available for spending for any other purpose than that for which it is restricted.

Reserved for prepaid items - An account that represents a portion of the fund balance which indicates that prepaid items do not represent available spendable resources even though they are a component of net current assets.

Reserved for unemployment benefits - An account that represents a portion of the fund balance that is legally restricted for the payment of unemployment benefits.

Reserved for inventory - An account that represents a portion of the fund balance which indicates that inventories do not represent available spendable resources even though they are a component of net current assets.

Unreserved - designated for, reported in special revenue funds - An account that represents a portion of the unreserved fund balance that the school board has specifically obligated for future uses.

M. Property Taxes

Ad valorem property taxes are levied by the governing authority of the city on behalf of the school district based upon an order adopted by the school board of the school district requesting an ad valorem tax effort in dollars. Since the taxes are not levied and collected by the school district, the revenues to be generated by the annual levies are not recognized until the taxes are actually collected by the tax levying authority.

N. Mississippi Adequate Education Program Revenues

Revenues from the adequate education program are appropriated on a fiscal year basis and are recorded at the time the revenues are received from the state of Mississippi.

O. Compensated Absences

Employees of the school district accumulate sick leave at a minimum amount as required by state law or at a greater amount provided by school district policy. Some employees are allowed personal leave and/or vacation leave in accordance with school district policy. The district pays for unused leave for employees as required by Section 37-7-307(5), Miss. Code Ann. (1972).

**HOLLY SPRINGS SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
FOR THE YEAR ENDED JUNE 30, 2006**

Note 1: Summary of Significant Accounting Policies (Continued)

The liability for these compensated absences is recorded as long-term liabilities in the government-wide statements. The current portion of this liability is estimated based on historical trends. In the fund financial statements, governmental funds report the compensated absence liability payable from expendable available financial resources only if the payable has matured, for example, an employee retires.

Note 2: Changes in Accounting Standards

As required, the Holly Springs School District has implemented Government Accounting Standards Board (GASB) Statement No. 42, *Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries* for the current fiscal year. This Statement requires governments to evaluate major events effecting capital assets to determine whether they are impaired. Such events include physical damage, changes in legal or environmental factors technology changes or obsolescence, changes in the manner or duration of use and construction stoppage. Appropriate note disclosures have been incorporated to comply with the requirements of this standard.

Note 3: Cash and Cash Equivalents, and Investments

The district follows the practice of aggregating the cash assets of various funds to maximize cash management efficiency and returns. Restrictions on deposits and investments are imposed by statutes as follows:

Deposits. The school board must advertise and accept bids for depositories no less than once every three years as required by Section 37-7-333, Miss. Code Ann. (1972). The collateral pledged for the school districts' deposits in financial institutions is held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5, Miss. Code Ann. (1972). Under this program, the entity's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Depository Insurance Corporation.

Investments. Section 29-3-113 and 37-59-43, Miss. Code Ann. (1972), authorizes the school board to invest surplus funds in the types of investments authorized by Section 27-105-33(d) and (e), Miss. Code Ann. (1972). This section permits the following types of investments: (a) certificates of deposits and interest bearing accounts with qualified state depositories; (b) direct United States Treasury obligations; (c) United States Government agency, United States Government instrumentality or United States Government sponsored enterprise obligations, the principal and interest of which are fully guaranteed by the government or enumerated

agency of the United States; (d) direct security repurchase agreements and reverse direct security repurchase agreements of any federal book entry of only those securities enumerated in (b) and (c) above; (e) direct obligations issued by the United States of America that are deemed to include securities of, or interest in, and open-end or closed-end any management type investment company or investment trust approved by the State Treasurer and the Executive Director of the Department of Finance and Administration. Investment income on bond funds (Capital Projects), bond sinking funds (Debt Service Funds) and sixteenth section principal funds (Permanent Funds) must be credited to those funds. Investment income of \$100 or more of any fund must be credited to that fund. Amounts less than \$100 can be credited to the General Fund.

Cash and Cash Equivalents.

The carrying amount of the school district's deposits with financial institutions reported in the governmental funds and fiduciary funds was \$2,650,244 and \$1,304,406, respectively. The carrying amount of deposits reported in the government-wide financial statements was: Cash and Cash Equivalents - \$2,650,244. The bank balance was \$3,774,826.

Custodial Credit Risk - Deposits. Custodial credit risk is defined as the risk that, in the event of the failure of a financial institution, the district will not be able to recover deposits or collateral securities that are in the possession of an outside party. The district does not have a deposit policy for custodial credit risk. However, the Mississippi State Treasurer manages the risk on behalf of the district. Deposits above FDIC coverage are collateralized by the pledging financial institutions trust department or agent in the name of the Mississippi State Treasurer on behalf of the district. As of June 30, 2006, none of the district's bank balance of \$3,774,826 was exposed to custodial credit risk.

Investments

As of June 30, 2006, the district had the following investments. All investments are in an internal investment pool.

<u>Investment Type</u>	<u>Maturity (in years)</u>	<u>Fair Value</u>	<u>Rating</u>
U.S. Treasury bills	less than 1	\$ 89,645	AA
Total Investments		\$ 89,645	

Interest Rate Risk. The district does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

**HOLLY SPRINGS SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
FOR THE YEAR ENDED JUNE 30, 2006**

Note 3: Cash and Cash Equivalents, and Investments (Continued)

Credit Risk. State law limits investments to those prescribed in Sections 27-105-33(d) and 27-105-33(e), Miss. Code Ann. (1972). The district does not have a formal investment policy that would further limit its investment choices or one that addresses credit risk.

Custodial Credit Risk - Investments. Custodial credit risk is defined as the risk that, in the event of the failure of the counterparty, the district will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The district does not have a formal investment policy that addresses custodial credit risk. As of June 30, 2006, the district did not have any investments to which this would apply.

Concentration of Credit Risk. Disclosures of investments by amount and issuer for any issuer that represents five percent or more of total investments is required. This requirement does not apply to investments issued or explicitly guaranteed by the U.S. government, investments in mutual funds and external investment pools, and other pooled investments.

Note 4: Interfund Transactions and Balances

The following is a summary of interfund transactions and balances:

A. Due From/To Other Funds:

Note 5: Capital Assets (Continued)

Depreciation expense was charged to the following governmental functions:

	Amount
Instruction	\$ 321,877
Support services	14,938
Non-instructional	14,553
Total depreciation expense	\$ 351,368

The capital assets above include significant amounts of buildings and furniture and equipment which have been valued at estimated historical cost. The estimated historical cost was based on replacement cost multiplied by the consumer price index implicit price deflator for the year of acquisition.

Adjustments:

Roofing replacement costs of \$32,774 had been omitted from building improvements in prior years.

Total	<u>\$ 2,225,000</u>	<u>728,240</u>	<u>2,953,240</u>

The amount of bonded indebtedness that can be incurred by the school district is limited by state statute. Total outstanding bonded indebtedness during a year can be no greater than 15% of the assessed value of the taxable property within such district, according to the then last completed assessment for taxation, unless certain conditions, as set forth in state statutes, have been met. As of June 30, 2006, the amount of outstanding bonded indebtedness was equal to 4% of property assessments as of October 2005. This debt will be retired from the Debt Service General Obligation Bond Fund.

Total	<u>\$ 215,000</u>	<u>15,307</u>	<u>230,307</u>

This debt will be retired from the Buildings & Buses Special Revenue and 1998 Three Mill/EEF Bonds Funds.

D. Compensated absences payable

As more fully explained in Note 1(O), compensated absences payable is adjusted on an annual basis as required by Section 37-7-307 (5), Miss. Code Ann. (1972). Compensated absences will be paid from the fund from which the employees' salaries were paid.

Note 7: Defined Benefit Pension Plan

Plan Description. The school district contributes to the Public Employees' Retirement System of Mississippi (PERS), a cost-sharing multiple-employer defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by state law and may be amended only by the State of Mississippi Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Public Employees' Retirement System of Mississippi, PERS Building, 429 Mississippi Street, Jackson, MS 39201 or by calling (601) 359-3589 or 1-800-444-PERS.

**HOLLY SPRINGS SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
FOR THE YEAR ENDED JUNE 30, 2006**

Note 7: Defined Benefit Pension Plan (Continued)

Funding Policy. PERS members are required to contribute 7.25% of their annual covered salary, and the school district is required to contribute at an actuarially determined rate. The current rate is 10.75% of annual covered payroll. The contribution requirements of PERS members and employers are established and may be amended only by the State of Mississippi Legislature. The school district's contributions to PERS for the fiscal years ending June 30, 2006, 2005, and 2004 were \$853,410, \$769,386 and \$610,759, respectively, which equaled the required contributions for each year.

Note 8: Prior Period Adjustments/Exhibits

A summary of significant fund equity adjustments is as follows:

<u>Exhibit B - Statement of Activities</u>	<u>Amount</u>
<u>Explanation</u>	
1. To correct a prior year error in recording an asset or liability.	\$ <u>26,219</u>
Total	\$ <u><u>26,219</u></u>

Note 9: Litigation

The school district had \$6,236 of judgments payable as of June 30, 2006.

Note 10: Risk Management

The school district is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Except as described below, the district carries commercial insurance for these risks. Settled claims resulting from these insured risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

**HOLLY SPRINGS SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
FOR THE YEAR ENDED JUNE 30, 2006**

Note 10: Risk Management (Continued)

Participation in Public Entity Risk Pool

The school district is a member of the Mississippi Public Entity Workers' Compensation Trust (MPEWCT). The trust is a risk-sharing pool; such a pool is frequently referred to as a self-insurance pool. The trust covers risks of loss arising from injuries to the school district's employees. The Mississippi Workers' Compensation Commission requires that an indemnity agreement be executed by each member in a workers' compensation self-insurance pool for the purpose of jointly and severally binding the pool and each of the employers comprising the group to meet the workers' compensation obligations of each member. Each member of MPEWCT contributes quarterly to a fund held in trust. The funds in the trust account are used to pay any claim up to \$500,000. For a claim exceeding \$500,000, MPEWCT has insurance which will pay the excess up to \$25,000,000. If total claims during a year were to deplete the trust account, then the pool members would be required to pay for the deficiencies. The district has not had an additional assessment for excess losses incurred by the pool.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF THE FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Superintendent and School Board
Holly Springs School District

We have audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Holly Springs School District as of and for the year ended June 30, 2006, which collectively comprise the Holly Springs School District's basic financial statements and have issued our report thereon dated September 25, 2007. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the school district's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide an opinion on the internal control over financial reporting. However, we noted certain matters involving the internal control over financial reporting and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgment, could adversely affect the school district's ability to initiate, record, process, summarize and report financial data consistent with the assertions of management in the financial statements. Reportable conditions are described in the Schedule of Findings and Questioned Costs as Findings 06-1.

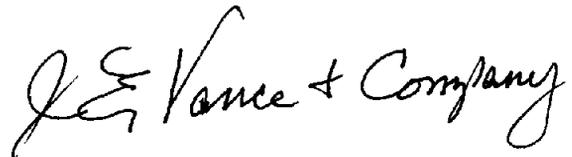

A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, of the reportable condition described in the finding referred to above is considered to be a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the school district's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests did not disclose any instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the school board and management, entities with accreditation overview, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Superintendent and School Board
Holly Springs School District

Compliance

We have audited the compliance of the Holly Springs School District with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2006. The school district's major federal programs are identified in the summary of auditor's results section of the Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the school district's management. Our responsibility is to express an opinion on the school district's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the school district's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the school district's compliance with those requirements.

In our opinion, Holly Springs School District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2006.

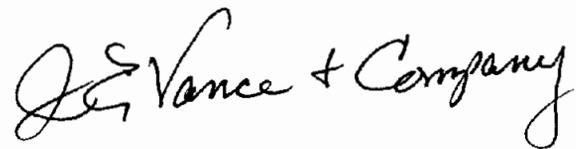

Internal Control Over Compliance

The management of the Holly Springs School District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the school district's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We did not note any matters involving internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the school board and management, entities with accreditation overview, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH
STATE LAWS AND REGULATIONS**

Superintendent and School Board
Holly Springs School District

We have audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Holly Springs School District as of and for the year ended June 30, 2006, which collectively comprise Holly Springs School District's basic financial statements and have issued our report thereon dated September 25, 2007. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Governmental Auditing Standards*, issued by the Comptroller General of the United States.

Section 37-9-18(3), Miss. Code Ann. (1972), states in part, "the auditor shall test to insure that the school district is complying with the requirements of Section 37-61-33(3)(a)(iii), Miss. Code Ann. (1972), relating to classroom supply funds". As required by the state legal compliance audit program prescribed by the Office of the State Auditor, we have also performed procedures to test compliance with certain other state laws and regulations. However, providing an opinion on compliance with all state laws and regulations was not an objective of our audit and, accordingly, we do not express such an opinion.

The results of our procedures performed to test compliance with the requirements of Section 37-61-33(3)(a)(iii), Miss. Code Ann. (1972), disclosed no instances of noncompliance. The district reported \$23,281 of classroom supply funds carried over from previous years.

The results of procedures performed to test compliance with certain other state laws and regulations and our audit of the financial statements did not disclose any instances of noncompliance with other state laws and regulations.

This report is intended solely for the information and use of the school board and management, entities with accreditation overview, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.
