INDEPENDENT AUDITOR'S REPORT

Superintendent and School Board
Lincoln County School District

I have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Lincoln County School District as of and for the year ended June 30, 2007, which collectively comprise the Lincoln County School District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Lincoln County School District's management. My responsibility is to express opinions on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Lincoln County School District as of June 30, 2007, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, I have also issued my report dated May 1, 2008, on my consideration of the Lincoln County School District's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of my audit.

The Management's Discussion and Analysis and the Budgetary Comparison Schedule and related notes are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. I have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, I did not audit the information and express no opinion on it.

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Lincoln County School District's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. In addition, the Schedule of Instructional, Administrative and Other Expenditures – Governmental Funds is presented for purposes of additional analysis as required by the Mississippi State Auditor's Office. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in my opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The discussion and analysis of the Lincoln County School District's financial performance provides an overall narrative review of the School District's financial activities for the year ended June 30, 2007. The intent of this discussion and analysis is to look at the School District's performance as a whole; readers should also review the financial statements and the notes to the basic financial statements to enhance their understanding of the School District's financial performance. Information contained in this section is qualified by the more detailed information contained elsewhere in this district's financial statements, notes to financial statements and any accompanying materials. To the extent this discussion contains any forward-looking statements of the District's plans, objectives, expectations and prospects, the actual results could differ materially from those discussed herein.

FINANCIAL HIGHLIGHTS

- Total net assets, including the effect of prior period adjustments, increased \$4,664,845, which represents a 24% increase from fiscal year 2006. This increase in net assets is primarily due to the following: 1) capital outlays of \$1,147,517 during the fiscal year were not reported as expenses in the Statement of Activities but were capitalized on the Statement of Net Assets, and 2) repayment of debt principal in the amount of \$660,000 was not reported as an expense in the Statement of Activities but as a reduction of long-term liabilities on the Statement of Net Assets, 3) sixteenth section sources generated during the fiscal year primarily from oil and gas royalties, timber sales, leases and earnings on investments, 4) a decrease in expenditures related to unfilled teacher positions, 5) a decrease in expenditures related to property insurance, building maintenance costs, transportation costs, administrative costs and attorney and audit fees, 6) an increase in local and state revenue, and 7) a conservative approach to spending during the fiscal year.
- General revenues accounted for \$19,516,072 in revenue, or 85% of all revenues. Program specific revenues in the form of charges for services and grants and contributions accounted for \$3,504,996, or 15% of total revenues.
- The District had \$18,356,223 in expenses; only \$3,504,996 of these expenses were offset by program specific charges for services, grants and contributions. General revenues of \$19,516,072 were adequate to provide for these programs.
- Among major funds, the General Fund had \$16,570,912 in revenues and \$14,145,077 in expenditures. This resulted in an excess of revenues over expenditures in the amount of \$2,425,835 due primarily to 1) a decrease in expenditures related to unfilled teacher positions, 2) a decrease in expenditures related to property insurance, building maintenance costs, transportation costs, administrative costs and attorney and audit fees, 3) an increase in local and state revenue, and 4) a conservative approach to spending during the fiscal year. After net other financing uses of \$1,565,290, which included a transfer of \$1,500,000 to the 2005 Construction Fund, the net change in fund balance for the General Fund was an increase of \$860,545 from the previous fiscal year.
- Capital assets, net of accumulated depreciation, increased by \$555,540 due primarily to the construction of school facilities and other improvements and the purchase of new school buses during the fiscal year.
- Long-term debt decreased by \$650,301 due primarily to principal payments made during the fiscal year on existing long-term debt.

"In Pursuit of Excellence"

OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. These statements are prepared using the accrual basis of accounting and include all assets and liabilities.

The statement of net assets presents information on all the District's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal years.

The government-wide financial statements outline functions of the District that are principally supported by property taxes and intergovernmental revenues (governmental activities). The governmental activities of the District include instruction, support services, non-instructional, sixteenth section and interest and other expenses on long-term liabilities.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's current financing requirements. Governmental funds are reported using modified accrual accounting. This method of accounting measures cash and other assets that can be easily converted to cash. The governmental funds statements provide a detailed short-term view of the school district's operations.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's current financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains individual governmental funds in accordance with the *Financial Accounting Manual for Mississippi Public School Districts*. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for all major funds. All other non-major funds are combined together and presented in these reports as other governmental funds.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected in the government-wide financial statements because resources of those funds are not available to support the District's own programs. The accrual basis of accounting is used for fiduciary funds. The school district is responsible for ensuring that the assets reported in these funds are used for their intended purpose.

Notes to the financial statements. The notes provide additional information that is essential to have a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's budget process.

The District adopts an annual operating budget for all governmental funds. A budgetary comparison statement has been provided for the General Fund and each additional major special revenue fund.

Additionally, a schedule of expenditures of federal awards is required by OMB Cir. A-133 and a schedule of instructional, administrative and other expenditures for governmental funds is also included in this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net assets. Net assets may serve over time as a useful indicator of a government’s financial position. In the case of the District, assets exceeded liabilities by \$24,010,494 as of June 30, 2007.

The district’s net assets are comprised of 1) net assets invested in capital assets, net of related debt, 2) restricted net assets and 3) unrestricted net assets. \$9,286,771 of the District’s net assets (39%) reflects its investment in capital assets (e.g., land, construction in progress, buildings, building improvements, improvements other than buildings, mobile equipment and furniture and equipment), less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to its students; consequently these assets are not available for future spending. \$5,062,407 of the District’s net assets (21%) reflects its restricted net assets. A portion of the restricted net assets is expendable for school based activities, debt service, forestry improvements and unemployment benefits. The remaining portion of the restricted net assets is nonexpendable for 16th section investment purposes. \$9,661,316 of the District’s net assets (40%) reflects its unrestricted net assets.

The District’s financial position is a product of several financial transactions including the net result of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets and the depreciation of capital assets.

The following table presents a summary of the District’s net assets for the fiscal year ended June 30, 2007 and comparative data for the fiscal year ended June 30, 2006.

	<u>Net Assets</u>		<u>Percentage Change</u>
	<u>June 30, 2007</u>	<u>June 30, 2006</u>	
Current assets	\$ 11,303,310	\$ 8,867,536	27.5 %
Other assets	3,742,345	2,689,236	39.2 %
Capital assets, net	<u>16,641,771</u>	<u>16,086,231</u>	3.5 %
Total assets	<u>31,687,426</u>	<u>27,643,003</u>	14.6 %
Current liabilities	198,840	168,961	17.7 %
Long-term debt outstanding	<u>7,478,092</u>	<u>8,128,393</u>	(8.0) %
Total liabilities	<u>7,676,932</u>	<u>8,297,354</u>	(7.5) %
Net assets:			
Invested in capital assets, net of related debt	9,286,771	8,071,231	15.1 %
Restricted	5,062,407	3,856,063	31.3 %
Unrestricted	<u>9,661,316</u>	<u>7,418,355</u>	30.2 %
Total net assets	<u>\$ 24,010,494</u>	<u>19,345,649</u>	24.1 %

The following are significant current year transactions that have had an impact on the Statement of Net Assets:

- Current assets increased from the previous fiscal year due primarily to an increase in cash and cash equivalents resulting from 1) a decrease in expenditures related to unfilled teacher positions, 2) a decrease in expenditures related to property insurance, building maintenance costs, transportation costs, administrative costs and attorney and audit fees, 3) an increase in local and state revenue, and 4) a conservative approach to spending during the fiscal year.
- Other assets increased from the previous fiscal year due primarily to an increase in cash and cash equivalents in the 16th Section Principal Funds which are reported as restricted assets on the Statement of Net Assets.
- Current liabilities increased from the previous fiscal year due primarily to an increase in accounts payable and accrued liabilities.

- Long-term debt outstanding decreased from the previous fiscal year due primarily to principal payments made during the fiscal year on existing long-term debt.
- Net assets invested in capital assets, net of related debt, increased from the previous fiscal year due primarily to the increase in capital assets during the fiscal year and the reduction of long-term debt related to the capital assets.
- Restricted net assets increased from the previous fiscal year due primarily to an increase in amounts restricted for school based activities and sixteenth section purposes.
- Unrestricted net assets increased from the previous fiscal year due primarily to expendable sixteenth section sources generated during the fiscal year and an increase in the fund balance of the General Fund due to a conservative approach to spending, an increase in various local and state revenues and a decrease in expenditures due to unfilled teacher positions, property insurance, building maintenance costs, transportation costs, administrative costs and attorney and audit fees.

Changes in net assets. The District's total revenues for the fiscal year ended June 30, 2007 were \$23,021,068. The total cost of all programs and services was \$18,356,223. The following table presents a summary of the changes in net assets for the fiscal year ended June 30, 2007 and comparative data for the fiscal year ended June 30, 2006.

	Change in Net Assets		Percentage Change
	June 30, 2007	June 30, 2006	
Revenues:			
Program revenues:			
Charges for services	\$ 990,700	\$ 940,623	5.3 %
Operating grants and contributions	2,514,296	2,792,326	(10.0) %
General revenues:			
Property taxes	3,705,576	3,680,660	0.7 %
Grants and contributions not restricted	13,203,669	12,423,514	6.3 %
Other	<u>2,606,827</u>	<u>2,540,583</u>	2.6 %
Total revenues	<u>23,021,068</u>	<u>22,377,706</u>	2.9 %
Expenses:			
Instruction	11,087,452	11,416,251	(2.9) %
Support services	5,323,210	5,081,804	4.8 %
Non-instructional	1,261,095	1,261,685	(0.1) %
Sixteenth section	346,135	426,604	(18.9) %
Interest and other expenses on long-term liabilities	<u>338,331</u>	<u>366,892</u>	(7.8) %
Total expenses	<u>18,356,223</u>	<u>18,553,236</u>	(1.1) %
Special Items	<u>0</u>	<u>640,860</u>	(100.0) %
Increase in net assets	4,664,845	4,465,330	4.5 %
Net Assets, July 1	19,345,649	14,875,813	30.0 %
Prior Period Adjustments	<u>0</u>	<u>4,506</u>	(100.0) %
Net Assets, Restated, July 1	<u>19,345,649</u>	<u>14,880,319</u>	30.0 %
Net Assets, June 30	<u>\$24,010,494</u>	<u>\$ 19,345,649</u>	24.1 %

The following are significant current year transactions that have had an impact on the Statement of Activities:

- Program revenues decreased from the previous fiscal year due primarily to a decrease in operating grants and contributions.
- General revenues increased from the previous fiscal year due primarily to an increase in unrestricted state grants and contributions.

Governmental activities. The following table presents, for the fiscal year ended June 30, 2007 and comparative data for the fiscal year ended June 30, 2006, the cost of five major District functional activities: instruction, support services, non-instructional, sixteenth section and interest and other expenses on long-term debt. The table also shows each function's net cost (total cost less charges for services generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden that was placed on the State and District's taxpayers by each of these functions.

	2007		2006	
	Total Expenses	Net (Expense) Revenue	Total Expenses	Net (Expense) Revenue
Instruction	\$ 11,087,452	\$ (9,483,508)	\$ 11,416,251	\$ (9,499,077)
Support services	5,323,210	(4,771,493)	5,081,804	(4,550,072)
Non-instructional	1,261,095	88,240	1,261,685	(10,890)
Sixteenth section	346,135	(346,135)	426,604	(393,356)
Interest and other expense on long-term liabilities	338,331	(338,331)	366,892	(366,892)
Total expenses	\$ 18,356,223	\$ (14,851,227)	\$ 18,553,236	\$ (14,820,287)

- The net cost of governmental activities for fiscal year 2007 in the amount of \$14,851,227 was financed by general revenue, which is made up of primarily property taxes of \$3,705,576 and state revenue of \$13,089,085.
- Investment earnings accounted for \$684,353 of funding.
- Sixteenth section revenue in the amount of \$1,845,745 was generated during the fiscal year from sixteenth section leases, the sale of timber and oil and gas royalties.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the District's governmental funds is to provide information on current inflows, outflows and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

The financial performance of the District as a whole is reflected in its governmental funds. As the District completed fiscal year June 30, 2007, its governmental funds reported a combined fund balance of \$14,928,690. The net change in fund balance for the fiscal year was an increase of \$3,437,247 due primarily to: 1) sixteenth section sources generated during the fiscal year primarily from oil and gas royalties, timber sales, leases and earnings on investments, 2) a decrease in expenditures related to unfilled teacher positions, 3) a decrease in expenditures related to property insurance, building maintenance costs, transportation costs, administrative costs and attorney and audit fees, 4) an increase in local and state revenue, and 5) a conservative approach to spending during the fiscal year. \$10,515,888, or 70%, of the fund balance is reported by fund type in the unreserved section of the Governmental Funds Balance Sheet. A portion of the unreserved fund balance has been designated and reported in the Capital Projects Funds and is a result of transfers from other governmental funds and will be used for capital improvements. The portion of the unreserved fund balance that is undesignated and reported in the General Fund is available for spending at the District's discretion. The portion of the unreserved fund balance that is undesignated and reported in the Special Revenue Funds will be used for school based activities. The remaining fund balance of \$4,412,802, or 30%, is reserved to indicate that it is not available for spending because it has already been committed. This portion of the fund balance is reserved for inventory, unemployment benefits, forestry improvements, debt service purposes and permanent fund purposes.

The General Fund is the principal operating fund of the District. The net change in fund balance for the General Fund for the fiscal year was an increase of \$860,545 due primarily to an increase in local and state revenue, a decrease in expenditures related to teacher salaries, property insurance, building maintenance costs, transportation costs, administrative costs, attorney and audit fees and a conservative approach to spending during the fiscal year. The net change in fund balance for the 16th Section 16-5-9 Interest Fund for the fiscal year was an increase of \$580,198 due primarily to revenue generated from the sale of timber and earnings on investments. The net change in fund balance for the 2005 Construction Fund for the fiscal year was an increase of \$797,138 due primarily to the transfer of funds from the General Fund to be used for capital

improvements. The net change in fund balance for the 16th Section 16-6-8 Principal Fund for the fiscal year was an increase of \$1,046,226 due to revenue generated from oil and gas royalties and earnings on investments. The net change in fund balance for the Other Governmental Funds for the fiscal year was an increase of \$153,140.

BUDGETARY HIGHLIGHTS

Over the course of the year, the District revised the annual operating budget. Significant budget revisions during the fiscal year are as follows:

- Budgeted amounts for revenue from local sources in the General Fund were increased primarily to reflect the increase in ad valorem receipts.
- Budgeted amounts for facilities acquisition and construction expenditures in the General Fund were decreased due primarily to various renovation and construction projects being delayed until the next fiscal year.
- Budgeted amounts for transfers out of the General Fund were increased primarily to reflect the transfer of funds to the 2005 Construction Fund during the fiscal year.
- Budgeted amounts for revenue from sixteenth section sources in the 16th Section 16-5-9 Interest Fund were increased to reflect the revenue generated primarily from the sale of timber and earnings on investments.
- Budgeted amounts for transfers into the 16th Section 16-5-9 Interest Fund were decreased to reflect the actual transfer of funds from the other 16th Section Interest shared funds.

A schedule showing the original and final budget amounts compared to the District's actual financial activity for the General Fund and other major special revenue funds is provided in this report as required supplementary information.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets. As of June 30, 2007, the District's total capital assets, before depreciation, were \$22,341,665, including land, construction in progress, buildings, building improvements, improvements other than buildings, mobile equipment and furniture and equipment. This amount represents a gross increase of \$874,372 from the previous year. During the fiscal year the District purchased four new school buses and various items of furniture and equipment. The District also continued the construction and renovation of various school facilities, completed a cafeteria and classroom extension project at West Lincoln School and completed various other improvements during the fiscal year. The District also disposed of seven old school buses and a few items of furniture and equipment. Total depreciation expense for the year was \$565,698. Total accumulated depreciation as of June 30, 2007 was \$5,699,894, resulting in total net capital assets of \$16,641,771.

	<u>Capital Assets, Net of Depreciation</u>		Percentage
	<u>2007</u>	<u>2006</u>	<u>Change</u>
Land	\$ 354,401	\$ 354,401	0.0 %
Construction in progress	1,201,301	1,171,972	2.5 %
Buildings	12,360,070	12,659,799	(2.4) %
Building improvements	408,123	0	
Improvements other than buildings	1,227,176	882,517	39.1 %
Mobile equipment	961,405	911,753	5.4 %
Furniture and equipment	<u>129,295</u>	<u>105,789</u>	22.2 %
Total	<u>\$ 16,641,771</u>	<u>\$16,086,231</u>	3.5 %

Debt Administration. At June 30, 2007, the District had \$7,478,092 in general and limited obligation bonds and other long-term debt outstanding, of which \$476,155 is due within one year. During the fiscal year, the District made principal payments in the amount of \$660,000 on existing long-term debt.

	<u>Outstanding Debt</u>		Percentage
	<u>2007</u>	<u>2006</u>	<u>Change</u>
General obligation bonds payable	\$ 3,320,000	\$ 3,675,000	(9.7) %
Limited obligation bonds payable	3,725,000	3,965,000	(6.1) %
Certificates of participation payable	310,000	375,000	(17.3) %

Compensated absences payable	<u>123,092</u>	<u>113,393</u>	8.6 %
Total	\$ 7,478,092	\$ 8,128,393	(8.0) %

CURRENT ISSUES

The Lincoln County School District is financially stable. The District is proud of its community support of the public schools. The District has committed itself to financial excellence for many years. In addition, the District's system of financial planning, budgeting and internal financial controls are well regarded. The District plans to continue its sound fiscal management to meet the challenges of the future.

Lincoln County School District
Notes to Financial Statements
For the Year Ended June 30, 2007

(1) Summary of Significant Accounting Policies.

The accompanying basic financial statements of the school district have been prepared in conformity with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). GASB is the accepted standard setting body for governmental accounting and financial reporting principles. The most significant of the school district's accounting policies are described below.

A. Financial Reporting Entity.

For financial reporting purposes, the reporting entity includes all funds that are covered by the oversight responsibility of the school district's governing board. As defined by accounting principles generally accepted in the United States of America, the school district is considered a "primary government." The school district is governed by a five member board. Each member was elected by the citizens of the school district.

The Leasing Authority ("the Authority") as explained in the following paragraph is considered to be a blended component unit as determined by Section 2100 of the *Codification of Governmental Accounting and Financial Reporting Standards* and is included in the district's reporting entity.

The Authority is governed by a five member board which was appointed by the school district's governing board. Although it is legally separate from the school district, it is reported as if it is part of the primary government because its sole purpose is to provide financing for the renovation, improvement, construction, and equipping of certain school facilities. Therefore, all of the Authority's assets, liabilities, equity, revenues, expenditures and other financing sources and uses have been included in the government-wide financial statements of the school district (see Note 10).

B. Basis of Presentation.

The school district's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities and fund financial statements which provide a more detailed level of financial information.

Government-Wide Financial Statements:

The Statement of Net Assets and Statement of Activities display information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds, if applicable. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange revenues.

The Statement of Net Assets presents the financial condition of the governmental activities of the school district at year-end. The Statement of Activities presents a comparison between direct expenses and program revenues for each function or program of the school district's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program. It also includes grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the school district, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the school district.

Fund Financial Statements:

Fund financial statements of the reporting entity are organized into funds, each of which is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and expenditures. Funds are organized

Lincoln County School District
Notes to Financial Statements
For the Year Ended June 30, 2007

into two major categories: governmental and fiduciary. An emphasis is placed on major funds within the governmental category.

C. Measurement Focus and Basis of Accounting.

In the government-wide Statement of Net Assets and Statement of Activities, governmental activities are presented using the economic resources measurement focus and the accrual basis of accounting as are the Fiduciary Fund financial statements. Revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used regardless of when the related cash flow takes place. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Program revenues on the Statement of Activities consist primarily of state appropriations and federal awards.

In the fund financial statements, governmental funds and agency funds are presented using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when "measurable and available". Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year end. Property taxes, state appropriations and federal awards associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported when due.

The school district reports the following major governmental funds:

General Fund - This is the school district's primary operating fund. It accounts for all financial resources of the school district, except those required to be accounted for in another fund.

16th Section 16-5-9 Interest Fund – This fund is used to account for the expendable financial resources generated from the use of sixteenth section trust lands. Available funds may be transferred to the General Fund or Construction Funds and be used for appropriate purposes.

2005 Construction Fund – This fund is used to account for capital expenditures which are financed by transfers from the General Fund.

16th Section 16-6-8 Principal Fund – This fund is used to account for the sale of non-renewable resources (oil, gas, gravel, sand, etc.) on sixteenth section lands. The use of the fund is limited to providing advances to the General Fund or Capital Projects Fund to finance capital expenditures. State law requires any funds on hand to be invested. Interest income may be transferred to the General Fund.

All other governmental funds not meeting the criteria established for major funds are presented in the other governmental column of Exhibit C.

Additionally the school district reports the following fund types:

GOVERNMENTAL FUNDS

Special Revenue Funds - Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted for specific expenditure purposes.

Capital Projects Funds - Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities.

Debt Service Funds - Debt Service Funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

Lincoln County School District
Notes to Financial Statements
For the Year Ended June 30, 2007

Permanent Funds - Permanent Funds are used to account for resources that are legally restricted to the extent that only earnings, and not the principal, may be used for purposes that support the district's programs.

FIDUCIARY FUNDS

Agency Funds - Agency Funds are used to report resources held by the district in a purely custodial capacity (assets equal liabilities) and do not involve measurement of results of operations.

D. Account Classifications.

The account classifications used in the financial statements conform to the broad classifications recommended in *Governmental Accounting, Auditing and Financial Reporting* as issued in 2005 by the Government Finance Officers Association and are consistent with the broad classifications recommended in the *Financial Accounting for Local and State School Systems, 2003* issued by the U.S. Department of Education.

E. Encumbrances.

An encumbrance system is not maintained to account for commitments resulting from approved purchase orders, work orders and contracts.

F. Cash and Cash Equivalents.

The school district deposits excess funds in the financial institutions selected by the school board. State statutes specify how these depositories are to be selected.

Cash and cash equivalents consist of amounts on deposit in demand accounts and certificates of deposits with maturities of three months or less. Cash and cash equivalents are valued at cost.

G. Investments.

The school district can invest its excess funds, as permitted by Section 29-3-113, Miss. Code Ann. (1972), in interest-bearing deposits or other obligations of the types described in Section 27-105-33, Miss. Code Ann. (1972), or in any other type investment in which any other agency, instrumentality or subdivision of the state of Mississippi may invest, except that 100% of said funds are authorized to be so invested.

For accounting purposes, certificates of deposit are classified as investments if they have a maturity greater than three months when acquired.

Investments are reported at fair value.

H. Inventories.

Donated commodities are received from the USDA and are valued at USDA cost. Other inventories are valued at cost (calculated on the first-in, first-out basis).

The costs of governmental fund type inventories are reported as expenditures when purchased.

I. Capital Assets.

Capital asset acquisition and construction are reflected as expenditures in the governmental fund statements and the related assets are reported as capital assets in the governmental activities column in the government-wide financial statements.

Lincoln County School District
Notes to Financial Statements
For the Year Ended June 30, 2007

Capital assets are reported at actual or estimated historical cost based on appraisals or deflated current replacement cost. Contributed assets are reported at estimated fair value at the time received.

Capitalization thresholds (dollar value above which asset acquisitions are added to the capital asset accounts) and estimated useful lives of capital assets are reported in the government-wide statements. Depreciation is calculated on the straight-line basis for all assets, except land. The following schedule details those thresholds.

	Capitalization Policy	Estimated Useful Life
Land	\$ 0	0
Buildings	\$ 50,000	40 years
Building improvements	\$ 25,000	20 years
Improvements other than buildings	\$ 25,000	20 years
Mobile equipment	\$ 5,000	5-10 years
Furniture and equipment	\$ 5,000	3-7 years
Leased property under capital leases	*	*

(*) The threshold amount will correspond with the amounts for the asset classifications, as listed. See Note 4 for details.

J. Long-term liabilities.

Long-term liabilities are the unmatured principal of bonds, warrants, notes, or other forms of noncurrent or long-term general obligation indebtedness. Long-term liabilities are not limited to liabilities from debt issuances, but may also include liabilities on lease-purchase agreements and other commitments. In the government-wide Statement of Net Assets, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column. (See Note 5 for details).

K. Interfund Transactions and Balances.

Interfund transactions and balances are the result of timing differences between the date expenses/expenditures occur and the date payments are made.

Short-term (due within one year) interfund loan receivables are reported as "due from other funds" and are considered available expendable resources.

Transfers are used to (a) move revenues from the fund that statute or budget requires to collect to the fund that statute or budget requires to expend them and to (b) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

Interfund receivables and payables between funds within governmental activities are eliminated in the Statement of Net Assets. See Note 3 for details for interfund transactions, including receivables and payables at year-end.

L. Equity Classifications.

Government-Wide Financial Statements:

Equity is classified as net assets and displayed in three components:

- a. Invested in capital assets, net of related debt – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Lincoln County School District
Notes to Financial Statements
For the Year Ended June 30, 2007

- b. Restricted net assets – Consists of net assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net assets – All other net assets that do not meet the definition of “restricted” or “invested in capital assets, net of related debt.”

Fund Financial Statements:

Governmental fund equity is classified as fund balance. Fund balance is further classified as reserved and unreserved, with unreserved further split between designated and undesignated.

Fund reserves are portions of fund equity that are legally segregated for a specific future use or are not available for current operations. Following is a description of fund reserves used by the district:

Reserved for debt service purposes – An account that represents a portion of the fund balance that is legally restricted for the retirement of school district debt.

Reserved for permanent fund purposes – An account that represents a portion of the fund balances that is legally restricted for investment purposes or borrowing by the school board for capital expenditures.

Reserved for unemployment benefits – An account that represents a portion of the fund balance that is legally restricted for the payment of unemployment benefits.

Reserved for forestry improvements – An account that represents a portion of the fund balance that is legally restricted for improving sixteenth section forest lands.

Reserved for inventory – An account that represents a portion of the fund balance which indicates that inventories do not represent available spendable resources even though they are a component of net current assets.

Unreserved – designated, reported in capital projects funds – An account that represents a portion of the unreserved fund balance that the school board has specifically obligated for future repairs, renovations, and construction projects of school district facilities.

M. Property Taxes.

Ad valorem property taxes are levied by the governing authority of the county on behalf of the school district based upon an order adopted by the school board of the school district requesting an ad valorem tax effort in dollars. Since the taxes are not levied and collected by the school district, the revenues to be generated by the annual levies are not recognized until the taxes are actually collected by the tax levying authority.

N. Mississippi Adequate Education Program Revenues.

Revenues from the adequate education program are appropriated on a fiscal year basis and are recorded at the time the revenues are received from the state of Mississippi.

O. Compensated Absences.

Employees of the school district accumulate sick leave at a minimum amount as required by state law or at a greater amount provided by school district policy. Some employees are allowed personal leave and/or vacation leave in accordance with school district policy. The district pays for unused leave for employees as required by Section 37-7-307(5), Miss. Code Ann. (1972).

Lincoln County School District
Notes to Financial Statements
For the Year Ended June 30, 2007

The liability for these compensated absences is recorded as long-term liabilities in the government-wide statements. The current portion of this liability is estimated based on historical trends. In the fund financial statements, governmental funds report the compensated absence liability payable from expendable available financial resources only if the payable has matured, for example, an employee retires.

(2) Cash and Cash Equivalents and Investments

The district follows the practice of aggregating the cash assets of various funds to maximize cash management efficiency and returns. Various restrictions on deposits and investments are imposed by statutes. These restrictions are summarized below:

Deposits. The school board must advertise and accept bids for depositories no less than once every three years as required by Section 37-7-333, Miss. Code Ann. (1972). The collateral pledged for school district deposits in financial institutions are held in the name of the Mississippi State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5, Miss. Code Ann. (1972). Under this program, the school district's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Depository Insurance Corporation.

Investments. Section 29-3-113 and 37-59-43, Miss. Code Ann. (1972), authorizes the school board to invest surplus funds in the types of investments authorized by Section 27-105-33 (d) and (e), Miss. Code Ann. (1972) and investments authorized under Section 27-105-365 Miss. Code Ann. (1972). That authority permits the following types of investments: (a) certificates of deposit and interest bearing accounts; (b) direct US Treasury obligations; (c) US Government agencies, US Government instrumentalities or US Government sponsored enterprise obligations; (d) direct security repurchase agreements and reverse direct security repurchase agreements of any federal book entry of those securities enumerated in (b) and (c) above; (e) direct obligations of the US in open-end or closed-end of any management type investment company; (f) in a trust consisting of pooled or commingled funds that includes investments in commercial paper and bankers acceptances or other short-term obligations issued by banks having one (1) of the two (2) highest short-term rating categories of either Standard Poor's Corporation or Moody's Investors Service, or corporate notes and bonds having one (1) of the three (3) highest long-term rating categories of either Standard Poor's Corporation or Moody's Investors Service, or in any open-ended or closed-ended management-type investment company or investment trust registered under the provisions or 15 USCS Section 80(a)-1 et seq. Investment income on bond funds (Capital Projects), bond sinking funds (Debt Service Funds) and sixteenth section principal funds (Permanent Funds) must be credited to those funds. Investment income of \$100 or more of any fund must be credited to that fund. Amounts less than \$100 can be credited to the General Fund.

Cash and Cash Equivalents.

The carrying amount of the school district's deposits with financial institutions reported in the governmental funds and fiduciary funds was \$14,206,942 and \$703,813, respectively. The carrying amount of deposits reported in the government-wide financial statements was: Cash and Cash Equivalents - \$10,464,597 and Restricted Assets - \$3,725,419. The Restricted Assets represents the cash balance of the sixteenth section principal fund (Permanent Fund) which is legally restricted and may not be used for purposes that support the district's programs. The bank balance was \$15,938,890.

Custodial Credit Risk – Deposits. Custodial risk is the risk that in the event of a depository failure, the school district deposits may not be returned to it. The school district does not have a formal policy for custodial credit risk. However, state law permits the Mississippi State Treasurer's office to manage that risk on behalf of the school district. Deposits above FDIC coverage are collateralized by the pledging financial institution's trust department or agent in the name of the Mississippi State Treasurer on behalf of the district. By signed agreement the Mississippi State Treasurer's office is acting on behalf of the school district.

Investments.

The school district had the following investments at year end:

Lincoln County School District
Notes to Financial Statements
For the Year Ended June 30, 2007

<u>Investment</u>	<u>Maturity</u>	<u>Credit Rating</u>	<u>Fair Value</u>
External Investment Pool Money Market Fund	Less than one Year	AAAm	<u>\$ 139,280</u>

Investments are reported at fair value which is based on quoted market price.

Interest Rate Risk. The school district does not have a formal investment policy that limits investments maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Credit Risk. The district does not have a policy that limits investment types.

(3) Interfund Transactions and Balances.

The following is a summary of interfund transactions and balances:

A. Due From/To Other Funds

	<u>Due From</u>	<u>Due To</u>
Major funds:		
General fund	\$ 7,669	
Other governmental funds		\$ 5,322
Fiduciary funds		\$ 2,347
Total	<u>\$ 7,669</u>	<u>\$ 7,669</u>

Due to and due from transactions were for the purpose of closing federal programs at year end that had either negative cash or fund balance accounts which is common for the proper accounting of reimbursable programs.

B. Transfers In/Out

	<u>Transfer In</u>	<u>Transfers Out</u>
Major funds:		
General fund	\$ 566,186	\$ 2,135,844
16 th Section 16-5-9 Interest Fund	\$ 68,918	
2005 Construction Fund	\$ 1,500,000	
16 th Section 16-6-8 Principal Fund		\$ 151,102
Other governmental funds	<u>\$ 281,126</u>	<u>\$ 129,284</u>
Total	<u>\$ 2,416,230</u>	<u>\$ 2,416,230</u>

Transfers out of the General Fund were for the purpose of financing education programs not funded by state or federal sources and to finance a building project accounted for in the 2005 Construction Fund. Transfers into the General Fund were primarily indirect costs transfers from federal programs. Transfers into the non-major funds (consisting mostly of federal programs) were for the purpose of closing federal programs at year end that had either negative cash or fund balance accounts which is common for the proper accounting of reimbursable programs.

(4) Capital Assets.

The following is a summary of changes in capital assets for governmental activities:

Lincoln County School District
Notes to Financial Statements
For the Year Ended June 30, 2007

	<u>Balance</u> <u>7-1-2006</u>	<u>Additions</u>	<u>Retirements</u>	<u>Completed</u> <u>Construction</u>	<u>Balance</u> <u>6-30-2007</u>
<u>Non-depreciable capital assets</u>					
Land	\$ 354,401				\$ 354,401

Mobile equipment	\$ 1,355,541	\$ 153,907	\$ (235,481)		\$ 1,273,967
Furniture and equipment	\$ 549,230	\$ 39,985	\$ (11,385)		\$ 577,830
Total accumulated depreciation	<u>\$ 5,381,062</u>	<u>\$ 565,698</u>	<u>\$ (246,866)</u>	<u>\$ 0</u>	<u>\$ 5,699,894</u>
Total depreciable capital assets, net	<u>\$14,559,858</u>	<u>\$ (231,860)</u>	<u>\$ (26,279)</u>	<u>\$ 784,350</u>	<u>\$15,086,069</u>
Governmental activities capital assets, net	<u>\$16,086,231</u>	<u>\$ 581,819</u>	<u>\$ (26,279)</u>	<u>\$ 0</u>	<u>\$16,641,771</u>

Depreciation expense was charged to the following governmental functions:

	<u>Amount</u>
Instruction	\$ 320,061
Support services	\$ 183,824
Non-instructional	\$ 61,813
Total depreciation expense	<u>\$ 565,698</u>

Commitments under construction contracts at June 30, 2007, are summarized as follows:

	<u>Remaining</u> <u>Commitment</u>	<u>Required</u> <u>Future</u> <u>Financing</u>
West Lincoln Classrooms	<u>\$ 369,822</u>	<u>\$ 0</u>

(5) Long-term liabilities.

The following is a summary of changes in long-term liabilities and other obligations for governmental activities:

Lincoln County School District
Notes to Financial Statements
For the Year Ended June 30, 2007

	Balance 7-1-2006	Additions	Reductions	Balance 6-30-2007	Amounts due within one year
A. General obligation bonds payable	\$ 3,675,000		\$ 355,000	\$ 3,320,000	\$ 160,000
B. Limited obligation bonds payable	\$ 3,965,000		\$ 240,000	\$ 3,725,000	\$ 240,000
C. Certificates of participation payable	\$ 375,000		\$ 65,000	\$ 310,000	\$ 70,000
D. Compensated absences payable	\$ 113,393	\$ 9,699		\$ 123,092	\$ 6,155
Total	<u>\$ 8,128,393</u>	<u>\$ 9,699</u>	<u>\$ 660,000</u>	<u>\$ 7,478,092</u>	<u>\$ 476,155</u>

A. General obligation bonds payable.

General obligation bonds are direct obligations and pledge the full faith and credit of the school district. General obligation bonds currently outstanding are as follows:

Description	Interest Rate	Issue Date	Maturity Date	Amount Issued	Amount Outstanding
General obligation bonds, Series 2002	Varies	12-1-02	6-1-20	\$ 3,800,000	\$ 3,320,000

The following is a schedule by years of the total payments due on this debt:

Year Ending June 30	Principal	Interest	Total
2008	\$ 160,000	\$ 137,006	\$ 297,006
2009	\$ 175,000	\$ 131,006	\$ 306,006
2010	\$ 190,000	\$ 124,442	\$ 314,442
2011	\$ 205,000	\$ 117,318	\$ 322,318
2012	\$ 220,000	\$ 190,528	\$ 410,528
2013 – 2017	\$ 1,360,000	\$ 407,060	\$ 1,767,060
2018 – 2020	\$ 1,010,000	\$ 94,030	\$ 1,104,030
Total	<u>\$ 3,320,000</u>	<u>\$ 1,201,390</u>	<u>\$ 4,521,390</u>

This debt will be retired from the 1997 Bond and Interest Fund and the 2002 Bond and Interest Fund (Debt Service Funds).

The amount of bonded indebtedness that can be incurred by the school district is limited by state statute. Total outstanding bonded indebtedness during a year can be no greater than 15% of the assessed value of the taxable property within such district, according to the then last completed assessment for taxation, unless certain conditions, as set forth in state statutes, have been met. As of June 30, 2007, the amount of outstanding bonded indebtedness was equal to 4.5% of property assessments as of October 1, 2006.

B. Limited obligation bonds payable.

Limited obligation bonds are direct obligations and pledge the full faith and credit of the school district. Limited obligation bonds currently outstanding are as follows:

Lincoln County School District
Notes to Financial Statements
For the Year Ended June 30, 2007

Description	Interest Rate	Issue Date	Maturity Date	Amount Issued	Amount Outstanding
State aid capital Improvement bonds	4.2%-6%	3-1-98	2-1-18	\$ 5,200,000	\$ 3,725,000

The following is a schedule by years of the total payments due on this debt:

	Year Ending		
	June 30	Principal	Interest
2008	\$ 240,000	\$ 161,944	\$ 401,944
2009	\$ 260,000	\$ 151,254	\$ 411,254
2010	\$ 260,000	\$ 140,074	\$ 400,074
2011	\$ 270,000	\$ 128,544	\$ 398,544
2012	\$ 285,000	\$ 116,195	\$ 401,195
2013 – 2017	\$ 1,630,000	\$ 369,240	\$ 1,999,240
2018	\$ 780,000	\$ 26,662	\$ 806,662
Total	\$ 3,725,000	\$ 1,093,913	\$ 4,818,913

This debt will be retired from the MAEP Long Term Pledge Fund (Debt Service Funds).

The state aid capital improvement bonds are secured by an irrevocable pledge of certain revenues the district receives from the state of Mississippi pursuant to the Mississippi Accountability and Adequate Education Program Act, Sections 37-151-1 through 37-151-7, Miss. Code Ann. (1972). The state aid capital improvement bonds are not included in the computation of the debt limit percentage.

B. Certificates of participation payable.

As more fully explained in Note 9, certificates of participation have been issued by the school district. Certificates of participation currently outstanding are as follows:

Description	Interest Rate	Issue Date	Maturity Date	Amount Issued	Amount Outstanding
Certificate of Participation Series 1998	4.95%	6-1-98	6-1-12	\$ 2,000,000	\$ 310,000

The following is a schedule by years of the total payments due on this debt:

	Year Ending		
	June 30	Principal	Interest
2008	\$ 70,000	\$ 15,345	\$ 85,345
2009	\$ 75,000	\$ 11,880	\$ 86,880
2010	\$ 75,000	\$ 8,168	\$ 83,168
2011	\$ 80,000	\$ 4,455	\$ 84,455
2012	\$ 10,000	\$ 494	\$ 10,494
Total	\$ 310,000	\$ 40,342	\$ 350,342

This debt will be retired from the EEF Building and Bus Fund (Special Revenue Funds).

Lincoln County School District
Notes to Financial Statements
For the Year Ended June 30, 2007

D. Compensated absences payable.

As more fully explained in Note 1(O), compensated absences payable is adjusted on an annual basis as required by Section 37-7-307(5), Miss. Code Ann. (1972). Compensated absences will be paid from the fund from which the employees' salary were paid.

(6) Defined Benefit Pension Plan.

Plan Description. The school district contributes to the Public Employees' Retirement System of Mississippi (PERS), a cost-sharing multiple-employer defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by state law and may be amended only by the State of Mississippi Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Public Employees' Retirement System of Mississippi, PERS Building, 429 Mississippi Street, Jackson, MS 39201 or by calling (601) 359-3589 or 1-800-444-PERS.

Funding Policy. PERS members are required to contribute 7.25% of their annual covered salary, and the school district is required to contribute at an actuarially determined rate. The current rate is 11.3% of annual covered payroll. The contribution requirements of PERS members and employers are established and may be amended only by the State of Mississippi Legislature. The school district's contributions to PERS for the fiscal years ending June 30, 2007, 2006 and 2005 were \$1,095,784, \$951,410 and \$941,742, respectively, which equaled the required contributions for each year.

(7) Other Commitments.

Commitments under construction contracts are described in Note 4.

Operating leases:

The school district has several operating leases for the following:

1. 3 Canon IK5000 copiers
2. 1 Canon IR5000 digital copier

Lease expenditures for the year ended June 30, 2007, amounted to \$10,020. Future lease payments for these leases are as follows:

Year Ending June 30	Amount
2008	\$ 10,020
2009	\$ 9,330
2010	\$ 1,815
Total	<u>\$ 21,165</u>

(8) Sixteenth Section Lands.

Sixteenth section school lands, or lands granted in lieu thereof, constitute property held in trust for the benefit of the public schools. The school board, under the general supervision of the Office of the Secretary of State, has control and jurisdiction of said school trust lands and of all funds arising from any disposition thereof. It is the duty of the school board to manage the school trust lands and all funds arising therefrom as trust property. Accordingly, the board shall assure that adequate compensation is received for all uses of the trust lands, except for uses by the public schools. The following are the future rental payments to be made to the school district for the use of school trust lands. These future rental payments are from existing leases and do not anticipate renewals or new leases.

Lincoln County School District
Notes to Financial Statements
For the Year Ended June 30, 2007

Year Ending June 30	Amount
2008	\$ 52,658
2009	\$ 43,515
2010	\$ 25,596
2011	\$ 13,622
2012	\$ 13,277
2013 – 2017	\$ 36,492
2018 – 2022	\$ 9,333
2023 – 2027	\$ 3,733
2028 – 2032	\$ 3,733
Thereafter	\$ 4,620
Total	\$ 206,579

(9) Risk Management.

The school district is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Except as described below, the district carries commercial insurance for these risks. Settled claims resulting from these insured risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Participation in Public Entity Risk Pool.

The school district is a member of the Mississippi School Boards Association Workers' Compensation Trust (MSBAWCT). The trust is a risk-sharing pool; such a pool is frequently referred to as a self-insurance pool. The trust consists of approximately 121 school districts and one community college and covers risks of loss arising from injuries to the member's employees. The Mississippi Workers' Compensation Commission requires that an indemnity agreement be executed by each member in a workers' compensation self-insurance pool for the purpose of jointly and severally binding the pool and each of the employers comprising the group to meet the workers' compensation obligations of each member. Each member of MSBAWCT contributes quarterly to a fund held in trust by BancorpSouth Bank in Jackson. The funds in the trust account are used to pay any claim up to \$700,000. For a claim exceeding \$700,000, MSBAWCT has insurance which will pay the excess to the statutory amount required by the Mississippi Workers Compensation Commission Act. If total claims during a year were to deplete the trust account, then the member school districts would be required to pay for the deficiencies. There were no additional assessments.

(10) Trust Certificates.

A trust agreement dated June 1, 1998, was executed by and between the school district and the Trustmark National Bank, as trustees.

The trust agreement authorized the issuance of trust certificates in the principal amount of \$2,000,000. Approximately \$1,992,663 was used to provide financing for the construction and renovation of school buildings and related facilities and equipment (the "project"); the remainder of approximately \$7,337 was used to pay the cost of issuance.

The project is leased to the school district in accordance with the provisions of the Emergency School Leasing Authority Act as described in Section 37-7-351, *et seq.*, Miss. Code Ann. (1972). The lease represents a capital lease under which ownership of the project will transfer to the school district upon complete retirement of the trust certificates. The school district is obligated to make lease payments to the trustee in an amount equal to the debt service requirements for the trust certificates. The lease rental payments by the school district are used by the trustee to pay the principal and interest payments due on the trust certificates. It is not anticipated the project will have sufficient value to satisfy the certificates in the event the school district defaults under the lease; therefore, the

Lincoln County School District
Notes to Financial Statements
For the Year Ended June 30, 2007

source of payment of the certificates is the responsibility of the school district. See Note 5 for details regarding the debt service requirement on the trust certificates.

Using the guidance provided in Section 2100 of the Codification of Governmental Accounting and Financial Reporting Standards dealing with defining the reporting entity, the trust accounts created by this trust agreement were deemed to constitute an inseparable part of the school district. Therefore, the assets, liabilities, equity, revenues, expenditures and other financing sources/uses of the trust accounts created by this trust agreement are part of the school district's financial statements, thereby eliminating the effects of the lease agreement for financial reporting purposes.

Lincoln County School District
Notes to the Required Supplemental Information
For the Year Ended June 30, 2007

(1) **Basis of Presentation.**

The Budgetary Comparison Schedules present the original legally adopted budget, the final legally adopted budget, the actual data on the GAAP basis, variances between the original budget and the final budget and variances between the final budget and the actual data.

(2) **Budget Amendments and Revisions.**

The budget is adopted by the school board and filed with the taxing authority. Amendments can be made on the approval of the school board. By statute, final budget revisions must be approved on or before October 15 following the end of the fiscal year. A budgetary comparison is presented for the general fund and each major special revenue fund on the same basis of accounting as the budget which is consistent with accounting principles generally accepted in the United States.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Superintendent and School Board
Lincoln County School District

I have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Lincoln County School District as of and for the year ended June 30, 2007, which collectively comprise the district's basic financial statements and have issued my report thereon dated May 1, 2008. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing my audit, I considered the school district's internal control over financial reporting as a basis for designing my auditing procedures for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion of the effectiveness of the school district's internal control over financial reporting. Accordingly, I do not express an opinion on the effectiveness of the school district's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is control deficiency, or combination of control deficiencies, that adversely affects the school district's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the school district's financial statements that is more than inconsequential will not be prevented or detected by the school district's internal control.

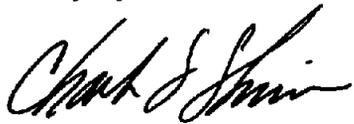

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the school district's internal control.

My consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. I did not identify any deficiency in the internal control over financial reporting that I consider to be material weaknesses, as described above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the school district's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the district's school board and management, entities with accreditation overview, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Superintendent and School Board
Lincoln County School District

Compliance

I have audited the compliance of the Lincoln County School District with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2007. The district's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the school district's management. My responsibility is to express an opinion on the school district's compliance based on my audit.

I conducted my audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that I plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the school district's compliance with those requirements and performing such other procedures as I considered necessary in the circumstances. I believe that my audit provides a reasonable basis for my opinion. My audit does not provide a legal determination on the school district's compliance with those requirements.

In my opinion, Lincoln County School District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2007.

Internal Control Over Compliance

The management of the Lincoln County School District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing my audit, I considered the school district's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine my auditing procedures for the purpose of expressing my opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, I do not express an opinion on the effectiveness of the school district's internal control over compliance.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

My consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. I did not identify any deficiencies in internal control over compliance that I consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the district's school board and management, entities with accreditation overview, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

REPORT ON COMPLIANCE WITH STATE LAWS AND REGULATIONS

Superintendent and School Board
Lincoln County School District

I have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Lincoln County School District as of and for the year ended June 30, 2007, which collectively comprise Lincoln County School District's basic financial statements and have issued my report thereon dated May 1, 2008. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Section 37-9-18(3)(a), Miss. Code Ann. (1972), states in part, "the Auditor shall test to insure that the school district is complying with the requirements of Section 37-61-33(3)(a)(iii), Miss. Code Ann. (1972), relating to classroom supply funds."

The results of my procedures performed to test compliance with the requirements of Section 37-61-33(3)(a)(iii), Miss. Code Ann. (1972), disclosed no instances of noncompliance. The district reported \$5,876 of classroom supply funds carried over from previous years.

Section 37-9-18(3)(b), Miss. Code Ann. (1972), states in part, "the Auditor shall test to insure correct and appropriate coding at the function level. The audit must include a report showing the correct and appropriate functional level expenditure codes in expenditures by the school district."

The results of my procedures performed to test compliance with the requirements of Section 37-9-18(3)(b), Miss. Code Ann. (1972), disclosed no instances of noncompliance related to incorrect or inappropriate functional level expenditure coding.

As required by the state legal compliance audit program prescribed by the Office of the State Auditor, I have also performed procedures to test compliance with certain other state laws and regulations. However, providing an opinion on compliance with state laws and regulations was not an objective of my audit and, accordingly, I do not express such an opinion. For the items tested for compliance with other state laws and regulations as required by the state legal compliance audit program prescribed by the Office of the State Auditor and my audit of the basic financial statements, nothing came to my attention to indicate that the district did not comply with the items tested.

This report is intended solely for the information and use of the school board and management, entities with accreditation overview, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS

This page left blank intentionally.

Lincoln County School District
 Schedule of Findings and Questioned Costs
 For the Year Ended June 30, 2007

Section 1: Summary of Auditor's Results

Financial Statements:

- | | | |
|----|--|---------------|
| 1. | Type of auditor's report issued on the basic financial statements: | Unqualified |
| 2. | Material noncompliance relating to the basic financial statements? | No |
| 3. | Internal control over financial reporting: | |
| | a. Material weaknesses identified? | No |
| | b. Reportable conditions identified that are not considered to be material weaknesses? | None Reported |

Federal Awards:

- | | | |
|-----|---|---------------|
| 4. | Type of auditor's report issued on compliance for major federal programs: | Unqualified |
| 5. | Internal control over major programs: | |
| | a. Material weaknesses identified? | No |
| | b. Reportable conditions identified that are not considered to be material weaknesses? | None Reported |
| 6. | Any audit finding(s) reported as required by section __.510(a) of Circular A-133? | No |
| 7. | Federal program identified as major program: | |
| | a. Title I grants to Local Educational Agencies | |
| | CFDA #: 84.010 | |
| | b. Special Education Cluster | |
| | CFDA #: 84.027 | |
| | CFDA#: 84.173 | |
| 8. | The dollar threshold used to distinguish between type A and type B programs: | \$300,000 |
| 9. | Auditee qualified as a low-risk auditee? | Yes |
| 10. | Prior fiscal year audit findings and questioned costs relative to federal awards which would require the auditee to prepare a summary schedule of prior audit findings as discussed in Section __.315(b) of OMB Circular A-133? | No |

Section 2: Financial Statement Findings

The results of my tests did not disclose any findings and questioned costs related to the financial statement that are required by the *Government Auditing Standards*.

Section 3: Federal Award Findings and Questioned Costs

The results of my tests did not disclose any findings and questioned costs related to the federal awards.
