STATEMENTS ACCOMPANIED BY REQUIRED SUPPLEMENTARY
INFORMATION AND SUPPLEMENTARY INFORMATION**

Superintendent and School Board
Senatobia Municipal School District

I have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Senatobia Municipal School District as of and for the year ended June 30, 2007, which collectively comprise the Senatobia Municipal School District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Senatobia Municipal School District's management. My responsibility is to express opinions on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinions.

In my opinion the financial statements, referred to above, present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the Senatobia Municipal School District, as of June 30, 2007, and the respective changes in financial position, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, I have also issued my report dated November 7, 2007 on my consideration of the Senatobia Municipal School District's internal control over financial reporting and my tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of my audit.

The Management's Discussion and Analysis on pages 8 through 16 and the Budgetary Comparison Schedules and corresponding notes on pages 41 through 44 are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. I have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation

AICPA & MSCPA

1929 Spillway Road, Suite B, Brandon, MS 39047, Telephone (601)992-5292

of the required supplementary information. However, I did not audit the information and express no opinion on it.

My audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Senatobia Municipal School District's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. In addition, the Schedule of Instructional, Administrative, and Other Expenditures - Governmental Funds is presented for purposes of additional analysis. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in my opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

J.E. Fortenberry, III, PC

MANAGEMENT'S DISCUSSION AND ANALYSIS

SENATOBIA MUNICIPAL SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2007

The discussion and analysis of the Senatobia Municipal School District's financial performance provides an overall narrative review of the School District's financial activities for the year ended June 30, 2007. The intent of this discussion and analysis is to look at the School District's performance as a whole; readers should also review the financial statements and the notes to the basic financial statements to enhance their understanding of the School District's financial performance. Information contained in this section is qualified by the more detailed information contained elsewhere in this district's financial statements, notes to financial statements and any accompanying materials. To the extent this discussion contains any forward-looking statements of the District's plans, objectives, expectations and prospects, the actual results could differ materially from those discussed herein.

FINANCIAL HIGHLIGHTS

- Total net assets, increased \$2,173,810, which represents a 28% increase from fiscal year 2006. This increase in net assets is primarily due to the following: 1) capital outlays during the fiscal year were not reported as expenses in the Statement of Activities but were capitalized on the Statement of Net Assets, and 2) repayment of debt principal during the fiscal year was not reported as an expense in the Statement of Activities but as a reduction of long-term liabilities on the Statement of Net Assets.
- General revenues accounted for \$11,920,962 in revenue, or 83% of all revenues. Program specific revenues in the form of charges for services and grants and contributions accounted for \$2,445,937, or 17% of total revenues.
- The District had \$12,193,089 in expenses; only \$2,445,937 of these expenses were offset by program specific charges for services, grants and contributions. General revenues of \$11,920,962 were adequate to provide for these programs.
- Among major funds, the General Fund had \$10,541,032 in revenues and \$9,217,976 in expenditures. After net other financing uses of \$1,483,296, including a transfer of funds to the Capital Project Fund to be used for renovation and construction of school facilities, the net change in fund balance for the General Fund was a decrease of \$160,240 from the previous fiscal year.
- Capital assets, net of accumulated depreciation, increased by \$7,127,259 primarily as a result of an increase in construction in progress related to the renovation and construction of school facilities.
- Long-term debt decreased by \$504,250 due to principal payments made on existing long-term debt and a decrease in the liability for compensated absences.

SENATOBIA MUNICIPAL SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2007

OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. These statements are prepared using the accrual basis of accounting and include all assets and liabilities.

The statement of net assets presents information on all the District's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal years.

The government-wide financial statements outline functions of the District that are principally supported by property taxes and intergovernmental revenues (governmental activities). The governmental activities of the District include instruction, support services, non-instructional and interest and other expenses on long-term liabilities.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's current financing requirements. Governmental funds are reported using modified accrual accounting. This method of accounting measures cash and other assets that can be easily converted to cash. The governmental funds statements provide a detailed short-term view of the school district's operations.

SENATOBIA MUNICIPAL SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2007

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's current financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains individual governmental funds in accordance with the *Financial Accounting Manual for Mississippi Public School Districts*. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for all major funds. All other non-major funds are combined together and presented in these reports as other governmental funds.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected in the government-wide financial statements because resources of those funds are not available to support the District's own programs. The accrual basis of accounting is used for fiduciary funds. The school district is responsible for ensuring that the assets reported in these funds are used for their intended purpose.

Notes to the financial statements. The notes provide additional information that is essential to have a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's budget process.

The District adopts an annual operating budget for all governmental funds. A budgetary comparison statement has been provided for the General Fund.

Additionally, a schedule of expenditures of federal awards is required by OMB Cir. A-133 and a schedule of instructional, administrative and other expenditures for governmental funds is also included in this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net assets. Net assets may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$9,914,538 as of June 30, 2007.

SENATOBIA MUNICIPAL SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2007

The district's net assets are comprised of 1) net assets invested in capital assets, net of related debt, 2) restricted net assets and 3) unrestricted net assets. \$2,217,119 of the District's net assets (22%) reflects its investment in capital assets (e.g., land, construction in progress, buildings, building improvements, improvements other than buildings, mobile equipment, furniture and equipment and leased property under capital leases), less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to its students; consequently these assets are not available for future spending. \$2,775,085 of the District's net assets (28%) reflects its restricted net assets. The restricted net assets are expendable for school based activities, debt service, capital improvements and unemployment benefits. \$4,922,334 of the District's net assets (50%) reflects its unrestricted net assets.

The District's financial position is a product of several financial transactions including the net result of activities, the payment of debt, the acquisition and disposal of capital assets and the depreciation of capital assets.

The following table presents a summary of the District's net assets for the fiscal year ended June 30, 2007 and comparative data for the fiscal year ended June 30, 2006.

	<u>Net Assets</u>		<u>Percentage</u>
	<u>June 30, 2007</u>	<u>June 30, 2006</u>	<u>Change</u>
Current assets	\$ 9,312,417	\$ 13,499,214	(31.0) %
Other assets	46,375	48,152	(3.7) %
Capital assets, net	<u>12,527,219</u>	<u>5,399,960</u>	132.0 %
Total assets	<u>21,886,011</u>	<u>18,947,326</u>	15.5 %
Current liabilities	1,569,996	295,025	432.2 %
Long-term debt outstanding	<u>10,401,477</u>	<u>10,905,727</u>	(4.6) %
Total liabilities	<u>11,971,473</u>	<u>11,200,752</u>	6.9 %
Net assets:			
Invested in capital assets, net of related debt	2,217,119	2,751,252	(19.4) %
Restricted	2,775,085	1,803,390	53.9 %
Unrestricted	<u>4,922,334</u>	<u>3,191,932</u>	(54.2) %
Total net assets	<u>\$ 9,914,538</u>	<u>7,746,574</u>	28.0%

The following are significant current year transactions that have had an impact on the Statement of Net Assets:

- Current assets decreased from the previous fiscal year due primarily to a decrease in cash and cash equivalents. Proceeds from a bond issuance at the end of the prior fiscal year remained unspent at the fiscal year end in the Building Project Fund. However, capital related expenditures were incurred during the current fiscal year resulting in a decrease in cash and cash equivalents.

SENATOBIA MUNICIPAL SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2007

- Capital assets increased from the previous fiscal year due primarily to an increase in construction in progress related to the renovation and construction of school facilities and the purchase of land during the fiscal year.
- Current liabilities increased from the previous fiscal year due primarily to an increase in accounts payable and accrued liabilities related mainly to payables recorded at fiscal year end in the Capital Project Funds.
- Long-term debt outstanding decreased from the previous fiscal year due to principal payments made on existing long-term debt and a decrease in the liability for compensated absences.
- Net assets invested in capital assets, net of related debt, increased from the previous fiscal year due primarily to the increase in capital assets during the fiscal year and the reduction of long-term debt related to the capital assets.
- Restricted net assets increased from the previous fiscal year due primarily to an increase in amounts restricted for capital improvement purposes.

Changes in net assets. The District's total revenues for the fiscal year ended June 30, 2007 were \$14,366,899. The total cost of all programs and services was \$12,193,089. The following table presents a summary of the changes in net assets for the fiscal year ended June 30, 2007 and comparative data for the fiscal year ended June 30, 2006.

	<u>Change in Net Assets</u>		<u>Percentage Change</u>
	<u>June 30, 2007</u>	<u>June 30, 2006</u>	
Revenues:			
Program revenues:			
Charges for services	\$ 500,417	\$ 487,974	2.5 %
Operating grants and contributions	1,945,520	1,938,011	0.4 %
General revenues:			
Property taxes	2,908,128	2,469,189	17.8 %
Grants and contributions not restricted	8,240,908	7,833,669	5.2 %
Other	<u>771,926</u>	<u>323,240</u>	138.8 %
Total revenues	<u>14,366,899</u>	<u>13,052,083</u>	10.1 %
Expenses:			
Instruction	7,211,223	6,895,725	4.6 %
Support services	3,880,661	3,732,788	4.0 %
Non-instructional	624,669	610,668	2.3 %
Interest and other expenses on long-term liabilities	<u>476,536</u>	<u>170,029</u>	180.3 %
Total expenses	<u>12,193,089</u>	<u>11,409,210</u>	6.9 %
Increase (Decrease) in net assets	2,173,810	1,642,873	32.3 %

SENATOBIA MUNICIPAL SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2007

Net Assets, July 1	7,746,574	6,103,701	26.9 %
Prior Period Adjustments	<u>(5,846)</u>	<u>0</u>	
Net Assets, Restated, July 1	<u>7,740,728</u>	<u>6,103,701</u>	26.8 %
Net Assets, June 30	<u>\$ 9,914,538</u>	<u>\$ 7,746,574</u>	30.0 %

The following are significant current year transactions that have had an impact on the Statement of Activities:

- General revenues increased from the previous fiscal year due primarily to an increase in property taxes related to debt service and an increase in other general revenues, specifically an increase in unrestricted investment earnings.
- Interest and other expenses on long-term liabilities increased from the previous fiscal year due primarily to an increase in interest payments as a result of the debt issuance in the prior fiscal year.

Governmental activities. The following table presents, for the fiscal year ended June 30, 2007 and comparative data for the fiscal year ended June 30, 2006, the cost of four major District functional activities: instruction, support services, non-instructional and interest and other expenses on long-term debt. The table also shows each function's net cost (total cost less charges for services generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden that was placed on the State and District's taxpayers by each of these functions.

	<u>2007</u>		<u>2006</u>	
	<u>Total Expenses</u>	<u>Net (Expense) Revenue</u>	<u>Total Expenses</u>	<u>Net (Expense) Revenue</u>
Instruction	\$ 7,211,223	\$ (6,048,969)	\$ 6,895,725	\$ (5,720,767)
Support services	3,880,661	(3,176,972)	3,732,788	(3,043,735)
Non-instructional	624,669	(44,675)	610,668	(48,694)
Interest and other expenses on long-term liabilities	<u>476,536</u>	<u>(476,536)</u>	<u>170,029</u>	<u>(170,029)</u>
Total expenses	<u>\$ 12,193,089</u>	<u>\$ (9,747,152)</u>	<u>\$ 11,409,210</u>	<u>\$ (8,983,225)</u>

- The net cost of governmental activities for fiscal year 2007 in the amount of \$9,747,152 was financed by general revenue, which is made up of primarily property taxes of \$2,908,128 and state revenue of \$8,214,867.
- Investment earnings accounted for \$630,121 of funding.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

SENATOBIA MUNICIPAL SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2007

Governmental funds. The focus of the District's governmental funds is to provide information on current inflows, outflows and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

The financial performance of the District as a whole is reflected in its governmental funds. As the District completed fiscal year June 30, 2007, its governmental funds reported a combined fund balance of \$7,844,671. The net change in fund balance for the fiscal year was a decrease of \$5,469,724 due primarily to expenditures incurred during the fiscal year related to the renovation and construction of school facilities. \$5,714,441, or 73%, of the fund balance is reported by fund type in the unreserved, undesignated section of the Governmental Funds Balance Sheet. The portion of the unreserved fund balance reported in the General Fund is available for spending at the District's discretion. The portion of the unreserved fund balance reported in the Special Revenue Funds will be used for school based activities. The portion of the unreserved fund balance reported in the Capital Project Funds is a result of transfers from other governmental funds to be used for capital improvement purposes. The remaining fund balance of \$2,130,230, or 27%, is reserved or designated to indicate that it is not available for spending because it has already been committed. This portion of the fund balance is reserved for inventory, prepaid items, unemployment benefits, capital project purposes and debt service purposes.

The General Fund is the principal operating fund of the District. The net change in fund balance for the General Fund for the fiscal year was a decrease of \$160,240. The net change in fund balance for the Capital Project Fund for the fiscal year was an increase of \$866,215 resulting from a transfer of funds from the General Fund to be used for future capital improvement purposes. The net change in fund balance for the Building Project Fund for the fiscal year was a decrease of \$6,269,081 due to expenditures incurred during the fiscal year for the renovation and construction of school facilities. The net change in fund balance for the Other Governmental Funds for the fiscal year was an increase of \$93,382.

BUDGETARY HIGHLIGHTS

Over the course of the year, the District revised the annual operating budget. Significant budget revisions during the fiscal year are as follows:

- Budgeted amounts for support services expenditures in the General Fund were decreased to reflect actual expenditures incurred during the fiscal year. The amounts originally budgeted were overstated.
- Budgeted amounts for facilities acquisition and construction expenditures in the General Fund were decreased. The amounts originally budgeted were overstated.
- Budgeted amounts for debt service principal expenditures in the General Fund were decreased to reflect actual expenditures incurred during the fiscal year. The amounts originally budgeted were overstated.

SENATOBIA MUNICIPAL SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2007

- Budgeted amounts for transfers out of the General Fund were increased during the fiscal year primarily to reflect the transfer of funds to the Capital Project Fund to be used for future capital improvement purposes.

A schedule showing the original and final budget amounts compared to the District's actual financial activity for the General Fund is provided in this report as required supplementary information.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets. As of June 30, 2007, the District's total capital assets, before depreciation, were \$15,949,178, including land, construction in progress, buildings, building improvements, improvements other than buildings, mobile equipment, furniture and equipment and leased property under capital leases. This amount represents a gross increase of \$7,327,730 from the previous year. This increase is due primarily to the increase in construction in progress related to the renovation and construction of school facilities and the purchase of land. Total depreciation expense for the year was \$200,419. Total accumulated depreciation as of June 30, 2007 was \$3,421,959, resulting in total net capital assets of \$12,527,219.

	<u>Capital Assets, Net of Depreciation</u>		<u>Percentage Change</u>
	<u>2007</u>	<u>2006</u>	
Land	\$ 1,007,521	\$ 315,424	219.4 %
Construction in progress	6,710,721	143,920	4562.8 %
Buildings	3,767,009	3,875,118	(2.8) %
Building improvements	106,361	111,679	(4.8) %
Improvements other than buildings	217,430	228,531	(4.9) %
Mobile equipment	312,724	300,200	4.2 %
Furniture and equipment	61,985	71,518	(13.3) %
Leased property under capital leases	<u>343,468</u>	<u>353,570</u>	(2.9) %
Total	<u>\$ 12,527,219</u>	<u>\$ 5,399,960</u>	132.0 %

Debt Administration. At June 30, 2007, the District had \$10,401,477 in general obligation bonds and other long-term debt outstanding, of which \$479,569 is due within one year. During the fiscal year, the District made principal payments in the amount of \$495,000 on existing long-term debt.

	<u>Outstanding Debt</u>		<u>Percentage Change</u>
	<u>2007</u>	<u>2006</u>	
General obligation bonds payable	\$ 10,150,000	\$ 10,615,000	(4.4) %
Obligations under capital leases	160,100	190,100	(15.8) %
Compensated absences payable	<u>91,377</u>	<u>100,627</u>	(9.2) %
Total	<u>\$ 10,401,477</u>	<u>\$ 10,905,727</u>	(4.6) %

SENATOBIA MUNICIPAL SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2007

CURRENT ISSUES

The Senatobia Municipal School District is financially stable. The District is proud of its community support of the public schools. The District has committed itself to financial excellence for many years. In addition, the District's system of financial planning, budgeting and internal financial controls are well regarded. The District plans to continue its sound fiscal management to meet the challenges of the future.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

Senatobia Municipal School District

Notes to the Financial Statements
June 30, 2007

Senatobia Municipal School District
Notes to Financial Statements
For the Year Ended June 30, 2007

(1) Summary of Significant Accounting Policies.

The accompanying financial statements of the school district have been prepared in conformity with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). GASB is the accepted standard-setting body for governmental accounting and financial reporting principles. The most significant of the school district's accounting policies are described below.

A. Financial Reporting Entity.

For financial reporting purposes, the reporting entity includes all funds that are covered by the oversight responsibility of the school district's governing board. As defined by accounting principles generally accepted in the United States of America, the school district is considered an "other stand-alone government." The school district is a related organization of, but not a component unit of, the City of Senatobia since the governing authority of the city selects a majority of the school district's board but does not have financial accountability for the school district.

B. Basis of Presentation.

The school district's basic financial statement consist of government-wide statements, including a statement of net assets and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-wide Financial Statements

The Statement of Net Assets and Statement of Activities display information about the reporting government as a whole. They include all the funds of the reporting entity except for the fiduciary funds, if applicable. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues.

The Statement of Net Assets presents the financial condition of the governmental activities of the school district at year-end. The Government-wide Statement of Activities presents a comparison between direct expenses and program revenues for each function or program of the school district's governmental activities. Direct expenses and program revenues for each function or program of the school district's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues, which are not classified as program revenues, are presented as general revenues of the school district, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the school district.

Senatobia Municipal School District
Notes to Financial Statements
For the Year Ended June 30, 2007

Fund Financial Statements:

Fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues and expenditures/expenses. Funds are organized into two major categories: governmental and fiduciary. An emphasis is placed on major funds within the governmental category.

C. Measurement Focus and Basis of Accounting.

In the government-wide Statement of Net Assets and Statement of Activities, governmental activities are presented using the economic resources measurement focus and the accrual basis of accounting as are the Fiduciary Fund financial statements. Revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used, regardless of when the related cash flow takes place. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Program revenues on the Statement of Activities consist primarily of state appropriations and federal awards.

In the fund financial statements, governmental funds are presented using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when "measurable and available". Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year end. Property taxes, state appropriations and federal awards associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported when due.

The school district reports the following major governmental funds:

General Fund - This is the school district's primary operating fund. It accounts for all financial resources of the school district, except those required to be accounted for in another fund.

Capital Projects Fund - This fund accounts for the funds transferred from the General Fund and the expenditures associated with the renovation and construction of school facilities.

Building Project Fund - This fund accounts for the funds transferred from the General Fund and the expenditures associated with the renovation and construction of school facilities.

Senatobia Municipal School District
Notes to Financial Statements
For the Year Ended June 30, 2007

All other governmental funds not meeting the criteria established for major funds are presented in the other governmental column of the fund financial statements.

Additionally, the school district reports the following fund types:

GOVERNMENTAL FUNDS

Special Revenue Funds - Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted for specific expenditure purposes.

Capital Project Funds - Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities.

Debt Service Funds - Debt Service Funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

Permanent Funds - Permanent Funds are used to account for resources that are legally restricted to the extent that only earnings, and not the principal, may be used for purposes that support the district's programs.

FIDUCIARY FUNDS

Agency Funds - Agency Funds are used to report resources held by the district in a purely custodial capacity (assets equal liabilities) and do not involve measurement of result of operations.

D. Account Classifications.

The account classifications used in the financial statements conform to the broad classifications recommended in *Governmental Accounting, Auditing, and Financial Reporting* as issued in 2005 by the Government Finance Officers Association and are consistent with the broad classifications recommended in *Financial Accounting for Local and State School Systems, 2003* issued by the U.S. Department of Education.

E. Encumbrances.

An encumbrance system is not maintained to account for commitments resulting from approved purchase orders, work orders and contracts.

F. Cash and Cash Equivalents.

The school district deposits excess funds in the financial institutions selected by the school board. State statutes specify how these depositories are to be selected.

Senatobia Municipal School District
Notes to Financial Statements
For the Year Ended June 30, 2007

Cash and cash equivalents consist of amounts on deposit in demand account and certificates of deposit with original maturities of three months or less. Cash and cash equivalents are valued at cost.

G. Investments.

The school district can invest its excess funds, as permitted by Section 29-3-113, Miss. Code Ann. (1972), in interest-bearing deposits or other obligations of the types described in Section 27-105-33, Miss. Code Ann. (1972), or in any other type investment in which any other agency, instrumentality or subdivision of the State of Mississippi may invest, except that 100% of said funds are authorized to be so invested.

For accounting purposes, certificates of deposit are classified as investments if they have a maturity greater than three months when acquired.

Investments are reported at fair value.

H. Inventories and Prepaid Items.

Donated inventories are received from the USDA and are valued at USDA cost. Other inventories are valued at cost (calculated on the first-in, first-out basis).

The cost of governmental fund type inventories are reported as expenditures when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and governmental fund financial statements.

I. Capital Assets.

Capital acquisition and construction are reflected as expenditures in the Governmental Fund statements and the related assets are reported as capital assets in the governmental activities column in the government-wide financial statements.

Capital assets are reported at actual or estimated historical cost based on appraisals or deflated current replacement cost. Contributed assets are reported at estimated fair value at the time received.

Capitalization thresholds (dollar value above which asset acquisitions are added to the capital asset accounts) and estimated useful lives of capital assets are reported in the government-wide statements.

Depreciation is calculated on the straight-line basis for all assets, except land. The following schedule details those thresholds.

Senatobia Municipal School District
Notes to Financial Statements
For the Year Ended June 30, 2007

	<u>Capitalization Policy</u>	<u>Estimated Useful Life</u>
Land	\$ 0	0
Buildings	50,000	40 years
Building improvements	25,000	20 years
Improvements other than build- ings	25,000	20 years
Mobile equipment	5,000	5-10 years
Furniture and equipment	5,000	3-7 years
Leased property under capital leases	*	*

(*) The threshold amount will correspond with the amounts for the asset classifica-
tions, as listed.
See Note 4 for details.

J. Long-term liabilities.

Long-term liabilities are the unmatured principal of bonds, warrants, notes, or other forms of noncurrent or long-term general obligation indebtedness. Long-term liabilities are not limited to liabilities from debt issuances, but may also include liabilities on lease-purchase agreements and other commitments. In the government-wide Statement of Net Assets, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column. See Note 5 for details.

K. Interfund Transactions and Balances.

Interfund transactions and balances are the result of timing differences between the date expenses/expenditures occur and the date payments are made.

Short-term (due within one year) interfund receivables are reported as "due from other funds" and are considered available expendable resources.

Transfers are used to (a) move revenues from the fund that statute or budget requires to collect to the fund that statute or budget requires to expend them and to (b) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

Interfund receivables and payables between funds within governmental activities are eliminated in the Statement of Net Assets. See Note 3. for details for interfund transactions, including receivables and payables at year-end.

L. Equity Classifications.

Senatobia Municipal School District
Notes to Financial Statements
For the Year Ended June 30, 2007

Government-Wide Financial Statements:

Equity is classified as net assets and displayed in three components:

1. Invested in capital assets, net of related debt- Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
2. Restricted net assets- Consists of net assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
3. Unrestricted net assets- All other net assets that do not meet the definition of "restricted", or "invested in capital assets, net of related debt."

Fund Financial Statements:

Governmental fund equity is classified as fund balance. Fund balance is further classified as reserved and unreserved, with unreserved further split between designated and undesignated.

Fund reserves are portions of fund equity that are legally segregated for a specific future use or are not available for current operations. Following is a description of fund reserves used by the district:

Reserved for inventory - An account that represents a portion of the fund balance which indicates that inventories do not represent available spendable resources even though they are a component of net current assets.

Reserved for prepaid items - An account that represents a portion of the fund balance which indicates that prepaid items do not represent available spendable resources even though they are a component of net current assets.

Reserved for unemployment benefits - An account that represents the fund balance of the unemployment compensation revolving fund which is legally restricted for the payment of unemployment benefits.

Reserved for debt service - An account that represents that portion of fund balance in the Debt Service Fund which was legally restricted and not available for spending for any other purpose than that for which it is restricted.

Reserved for capital projects - An account that represents that portion of fund balance in the Capital Projects Fund which was legally restricted and not available

Senatobia Municipal School District
Notes to Financial Statements
For the Year Ended June 30, 2007

for spending for any other purpose than that for which it is restricted.

M. Property Taxes.

Ad valorem property taxes are levied by the governing authorities of the city on behalf of the school district based upon an order adopted by the school board of the school district requesting an ad valorem tax effort in dollars. Since the taxes are not levied and collected by the school district, the revenues to be generated by the annual levies are not recognized until the taxes are actually collected by the tax levying authority.

N. Mississippi Adequate Education Program Revenues.

Revenues from the adequate education program are appropriated on a fiscal year basis and are recorded at the time the revenues are received from the state of Mississippi.

O. Compensated Absences.

Employees of the school district accumulate sick leave at a minimum amount as required by state law or at a greater amount provided by school district policy. Some employees are allowed personal leave and/or vacation leave in accordance with school district policy. The district pays for unused leave for employees as required by Section 37-7-307(5), Miss. Code Ann. (1972).

The liability for these compensated absences is recorded as long-term liabilities in the government-wide statements. The current portion of this liability is estimated based on historical trends. In the fund financial statements, governmental funds report the compensated absence liability payable from expendable available financial resources only if the payable has matured, for example, an employee retires.

(2) Cash and Cash Equivalents.

The district follows the practice of aggregating the cash assets of various funds to maximize cash management efficiency and returns. Restrictions on deposits are imposed by statutes as follows:

Deposits. The school board must advertise and accept bids for depositories no less than once every three years as required by Section 37-7-333, Miss. Code Ann. (1972). The collateral pledged for the school districts' deposits in financial institutions is held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5, Miss. Code Ann. (1972). Under this program, the entity's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a

Senatobia Municipal School District
Notes to Financial Statements
For the Year Ended June 30, 2007

financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Depository Insurance Corporation.

The carrying amount of the school district's deposits with financial institutions reported in the governmental funds and fiduciary funds was \$8,935,614 and \$551,208, respectively. The carrying amount of deposits reported in the government-wide financial statements was: cash and cash equivalents \$8,889,239 and restricted assets \$46,375. The restricted assets represent the cash balance of the Mississippi Adequate Education (MAEP) Bond Retirement Fund which is legally restricted and may not be used for purposes that support the district's programs. The bank balance was \$8,157,469.

Custodial Credit Risk - Deposits. Custodial credit risk is defined as the risk that, in the event of the failure of a financial institution, the district will not be able to recover deposits or collateral securities that are in the possession of an outside party. The district does not have a deposit policy for custodial credit risk. However, the Mississippi State Treasurer manages that risk on behalf of the district. Deposits above FDIC coverage are collateralized by the pledging financial institutions trust department or agent in the name of the Mississippi State Treasurer on behalf of the district. As of June 30, 2007, none of the district's bank balance was exposed to custodial credit risk.

(3) Interfund Transactions and Balances.

The following is a summary of interfund transactions and balances:

A. Due From/To Other Funds

	<u>Due From</u>	<u>Due To</u>
Governmental funds:		
General Fund	\$229,541	\$ 31,992
Other Governmental funds	<u>0</u>	<u>197,549</u>
Total Funds	\$229,541	\$229,541

The purpose of the Due From/To other funds balances was to remove negative cash balances from pooled bank accounts. All balances are expected to be repaid within one year from the date of the financial statements.

B. Transfers In/Out

	<u>Transfers In</u>	<u>Transfers Out</u>
Governmental funds:		
General Fund	\$ 84,057	\$ 1,567,545
Capital Projects	1,500,000	0
Other Governmental Funds	<u>6,500</u>	<u>23,012</u>
Total Funds	\$ 1,590,557	\$ 1,590,557

Transfers were made for indirect cost transfers and budgetary allocations. All transfers were

Senatobia Municipal School District
Notes to Financial Statements
For the Year Ended June 30, 2007

routine and consistent with the fund making the transfer.

(4) Capital Assets.

The following is a summary of changes in capital assets for governmental activities:

	Balance 7-01-2006	Additions	Retirements	Adjustments	Balance 6-30-2007
<u>Non-depreciable capital assets:</u>

	<u>Remaining Commitments</u>
Grade 3 - 6 School	\$ 784,953
Elementary School Renovations	595,984
High School Gym Renovations	205,548
New Middle School Technology	<u>26,000</u>
Total remaining commitments	<u>\$1,612,485</u>

(5) Long-term liabilities.

The following is a summary of changes in general long-term liabilities and other obligations for governmental activities:

	Balance <u>7-1-2006</u>	<u>Additions</u>	<u>Reductions</u>	<u>Adjustments</u>	Balance <u>6-30-2007</u>	Amounts due within one <u>year</u>
A. General obligation bonds payable	\$ 10,615,000		465,000		10,150,000	440,000
B. Obligations under capital leases	190,100		30,000		160,100	35,000
C. Compensated absences payable	<u>100,627</u>		<u>9,250</u>		<u>91,377</u>	<u>4,569</u>
Total	\$ <u>10,905,727</u>	<u>0</u>	<u>504,250</u>	<u>0</u>	<u>10,401,477</u>	<u>479,569</u>

A. General obligations bonds payable.

General obligation bonds are direct obligations and pledge the full faith and credit of the school district. General obligation bonds currently outstanding are as follows:

<u>Description</u>	<u>Interest Rate</u>	<u>Issue Date</u>	<u>Maturity Date</u>	<u>Amount Issued</u>	<u>Amount Outstanding</u>
GOB Series 1987	varies	03/87	03/07	\$1,550,000	0
GOB Series 1998	varies	03/98	03/14	3,500,000	2,020,000
GOB Series 2006	varies	03/06	06/26	<u>8,300,000</u>	<u>8,130,000</u>
Total				<u>\$13,350,000</u>	<u>10,150,000</u>

The following is a schedule by years of the total payments due on this debt:

Year Ending <u>June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2008	\$ 440,000	351,688	791,688
2009	490,000	340,719	830,719
2010	525,000	328,063	853,063
2011	565,000	314,000	879,000
2012	635,000	298,531	933,531
2013-2017	2,545,000	1,231,688	3,776,688
2018-2022	2,650,000	793,000	3,443,000
2023-2027	<u>2,300,000</u>	<u>207,000</u>	<u>2,507,000</u>

Senatobia Municipal School District
Notes to Financial Statements
For the Year Ended June 30, 2007

Total \$10,150,000 3,864,689 14,014,689

The amount of bonded indebtedness that can be incurred by the school district is limited by state statute. Total outstanding bonded indebtedness during a year can be no greater than 15% of the assessed value of the taxable property within such district, according to the then last completed assessment for taxation, unless certain conditions, as set forth in state statutes, have been met. As of June 30, 2007, the amount of outstanding bonded indebtedness was equal to 15% of property assessments as of October 1, 2006. This debt will be retired from the Bond Retirement Fund.

B. Obligations under capital leases.

The school district has entered into a lease agreement that qualifies as a capital lease for accounting purposes. Leased property under this lease is composed of a football stadium, parking area, and related facilities.

The various options available to the lessee for this lease are as follows:

At the end of the primary lease period or when the general obligation bonds, Series 1991, issued by the City of Senatobia for the construction of the football facility are paid in full, the lessee shall have the option to purchase the leased property for \$100.

The following is a schedule by years of the total payments due on this debt:

Year Ending			
<u>June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2008	\$ 35,000	11,200	46,200
2009	40,000	8,750	48,750
2010	40,000	5,950	45,950
2011	<u>45,100</u>	<u>3,150</u>	<u>48,250</u>
Total	<u>\$160,100</u>	<u>29,050</u>	<u>189,150</u>

The school district uses the straight line method of amortization for the lease payments which is not in accordance with generally accepted accounting principles in the United States of America. However, the difference between the effective interest method and the straight line method is not considered material. This debt will be retired from the District Maintenance Fund.

C. Compensated Absences.

As more fully explained in Note 1(O), compensated absences payable is adjusted on an annual basis as required by Section 37-7-307(5), Miss. Code Ann. (1972). Compensated absences will be paid from the fund from which the employee's salaries were paid.

Senatobia Municipal School District
Notes to Financial Statements
For the Year Ended June 30, 2007

(6) Defined Benefit Pension Plan.

Plan Description. The school district contributes to the Public Employees' Retirement System of Mississippi (PERS), a cost-sharing multiple-employer defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by state law and may be amended only by the State of Mississippi Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Public Employees' Retirement System of Mississippi, PERS Building, 429 Mississippi Street, Jackson, MS 39201 or by calling (601) 359-3589 or 1-800-444-PERS.

Funding Policy. PERS members are required to contribute 7.25% of their annual covered salary and the school district is required to contribute at an actuarially determined rate. The rate for fiscal year ended June 30, 2007, was 11.30% of annual covered payroll. The contribution requirements of PERS members and employers are established and may be amended only by the State of Mississippi Legislature. The school district's contributions to PERS for the fiscal years ending June 30, 2007, 2006, and 2005 were \$748,432, \$708,834, and \$605,585, respectively, which equaled the required contributions for each year.

(7) Other Commitments.

Commitments under construction contracts are described in Note 4.

(8) Prior Period Adjustments/Exhibits.

A summary of significant fund equity adjustments is as follows:

Exhibit B - Statement of Activities

<u>Explanation</u>	<u>Amount</u>
1. To record purchase of workbooks from students at local elementary school that should have been reported in prior year.	\$ (5,919)
2. To correctly record capital assets purchased in prior year	<u>73</u>
Total	\$ <u>(5,846)</u>

Senatobia Municipal School District

For the Year Ended June 30, 2007

Exhibit D - Statement of Revenues, Expenditures and Changes in Fund Balances

<u>Major Funds</u>	<u>Explanation</u>	<u>Amount</u>
General Fund	To record purchase of workbooks from students at local elementary school that should have been reported in prior year.	\$ <u>(5,919)</u>
	Total	\$ <u><u>(5,919)</u></u>

(9) Risk Management.

The school district is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Except as described below, the district carries commercial insurance for these risks. Settled claims resulting from these insured risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Participation in Public Entity Risk Pool.

The school district is a member of the Mississippi School Boards Association Workers' Compensation Trust (MSBAWCT). The trust is a risk-sharing pool; such a pool is frequently referred to as a self-insurance pool. The trust consists of approximately 121 school districts and one community college and covers risks of loss arising from injuries to the member's employees. The Mississippi Workers' Compensation Commission requires that an indemnity agreement be executed by each member in a workers' compensation self-insurance pool for the purpose of jointly and severally binding the pool and each of the employers comprising the group to meet the workers' compensation obligations of each member. Each member of MSBAWCT contributes quarterly to a fund held in trust by BancorpSouth Bank in Jackson. The funds in the trust account are used to pay any claim up to \$700,000. For a claim exceeding \$700,000, MSBAWCT has insurance which will pay the excess to the statutory amount required by the Mississippi Workers Compensation Commission Act. If total claims during a year were to deplete the trust account, then the member school districts would be required to pay for the deficiencies. The district has not had an additional assessment for excess losses incurred by the pool.

(10) Alternative School Center.

The school district entered into an Alternative School Agreement dated May 13, 1999 creating the Senatobia-Tate County Regional Optional Learning Center. This center was created pursuant to the provisions of Section 37-13-92 (6), Miss. Code Ann. (1972), and approved by the Mississippi Department of Education and includes the Senatobia Municipal School District, and the Tate County School District.

Senatobia Municipal School District

Notes to Financial Statements

For the Year Ended June 30, 2007

Section 37-13-92 (6), Miss. Code Ann. (1972), allows two or more adjacent school districts to enter into a contract to operate an alternative school program. The school board of the school district designated by the agreement as the lead district will serve as the governing board of the alternative school program. Transportation for students attending the alternative school program will be the responsibility of the individual school district sending the students.

The Senatobia Municipal School District has been designated as the lead school district for the Senatobia-Tate County Regional Optional Learning Center, and the operations of the consortium are included in its financial statements.

The following Statement of Revenues and Expenditures and Changes in Fund Balance is presented to detail the financial activity of the Senatobia-Tate County Regional Optional Learning Center.

(11) Vocational School Consortium.

The school district entered into a Vocational Educational Agreement dated January 1, 1984 creating the Senatobia-Tate County Regional Vocational Education Center. This center was created pursuant to the provisions of Section 37-31-73, Miss. Code Ann. (1972), and approved by the Mississippi Department of Education. The center includes the Senatobia Municipal School District and the Tate County School District.

Senatobia Municipal School District
Notes to Financial Statements
For the Year Ended June 30, 2007

Section 37-31-73, Miss. Code Ann. (1972), authorizes the above noted entities to enter into an agreement that would provide for the construction or operation of a regional vocational education center. Any such agreement should provide for a designated fiscal agent, providing the method of financing the construction and operation of such facilities, the manner in which such facilities are to be controlled and staffed and detail procedures for student admission and transportation services for those students.

The Tate County School District has been designated as the fiscal agent for the Senatobia-Tate County Regional Vocational Education Center, and the operations of the center are included in its financial statements.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION

Senatobia Municipal School District

Notes to the Required Supplementary Information
For the Year Ended June 30, 2007

Budgetary Comparison Schedule

(1) **Basis of Presentation**

The Budgetary Comparison Schedule presents the original legally adopted budget, the final legally adopted budget, the actual data on the GAAP basis, and variances between the original budget and the final budget.

(2) **Budget Amendments and Revisions.**

The budget is adopted by the school board and filed with the taxing authority. Amendments can be made on the approval of the school board. By statute, final budget revisions must be approved on or before October 15. A budgetary comparison is presented for the general fund and each major special revenue fund consistent with accounting principles generally accepted in the United States of America.

2. The expenditure amounts include transfers out.
3. The pass-through entities did not assign identifying numbers to the school district.

Senatobia Municipal School District
 Schedule of Instructional, Administrative and Other Expenditures - Governmental Funds
 For the Year Ended June 30, 2007

Expenditures	Total	Instruction and Other Student Instructional Expenditures	General Administration	School Administration	Other
Salaries and fringe benefits	\$ 8,926,656	7,233,135	421,727	543,702	728,092
Other	10,909,967	1,093,818	183,640	32,398	9,600,111
Total	\$ 19,836,623	8,326,953	605,367	576,100	10,328,203

Total number of students * 1,758

Cost per student \$ 11,284 4,737 344 328 5,875

For purposes of this schedule, the following columnar descriptions are applicable:

Instruction and Other Student Instructional Expenditures - includes the activities dealing directly with the interaction between teachers and students. Included here are the activities of teachers, teachers aides or classroom assistants of any type. (all the 1000, 2100, & 2200 functional codes)

General Administration - includes expenditures for the following functions: Support Services - General Administration (2300s); and Support Services - Business (2500s)

School Administration - includes expenditures for the following function: Support Services - School Administration (2400s)

Other - includes all expenditure functions not included in Instruction or Administration Categories

* Includes the number of students reported on the ADA report submission for month 9, which is the final submission for the fiscal year.

Note: includes 100 and 200 range object codes on the "Salaries and fringe benefits" line; all other expenditures on the "Other" line

INTERNAL CONTROL AND COMPLIANCE REPORTS

J.E. FORTENBERRY, III, PC
Certified Public Accountant

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
THE FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

Superintendent and School Board
Senatobia Municipal School District

I have audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Senatobia Municipal School District as of and for the year ended June 30, 2007, which collectively comprise Senatobia Municipal School District's basic financial statements and have issued my report thereon dated November 7, 2007. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing my audit, I considered the school district's internal control over financial reporting as a basis for designing my auditing procedures for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the school district's internal control over financial reporting. Accordingly, I do not express an opinion on the effectiveness of the school district's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the school district's internal control.

My consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies or material weaknesses. I did not identify any deficiencies in internal control over financial reporting that I consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the school district's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my tests did not disclose any instances of noncompliance that are required to be reported under Government Auditing Standards.

This report is intended solely for the information and use of the school board and management, entities with accreditation overview, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND INTERNAL CONTROL
OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

Superintendent and School Board
Senatobia Municipal School District

Compliance

I have audited the compliance of the Senatobia Municipal School District with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended June 30, 2007. The school district's major federal programs are identified in the summary of the auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contract and grants applicable to each of its major federal programs is the responsibility of the school district's management. My responsibility is to express an opinion on the school district's compliance based on my audit.

I conducted my audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, and OMB Circular A-133, "Audits of States, Local Governments, and Non-Profit Organizations." Those standards and OMB Circular A-133 require that I plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the school district's compliance with those requirements and performing such other procedures as I considered necessary in the circumstances. I believe my audit provides a reasonable basis for my opinion. My audit does not provide a legal determination on the school district's compliance with those requirements.

In my opinion, the Senatobia Municipal School District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2007.

Internal Control Over Compliance

The management of the Senatobia Municipal School District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing my audit, I considered the school district's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine my auditing procedures for the purpose of expressing my opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, I do not express an opinion on the effectiveness of the school district's internal control over compliance.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing

their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or a combination of control deficiencies, that adversely affects the entity's ability to administer a federal programs such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

My consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies or material weaknesses. I did not identify any deficiencies in internal control over compliance that I consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the school board and management, entities with accreditation overview, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

INDEPENDENT AUDITOR'S REPORT
ON COMPLIANCE WITH STATE LAWS AND REGULATIONS

Superintendent and School Board
Senatobia Municipal School District

I have audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Senatobia Municipal School District as of and for the year ended June 30, 2007, which collectively comprise Senatobia Municipal School District's basic financial statements and have issued my report thereon dated November 7, 2007. I conducted my audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Section 37-9-18(3)(a), Miss. Code Ann. (1972), states in part, "the auditor shall test to insure that the school district is complying with the requirements of Section 37-61-33(3)(a)(iii), Miss. Code Ann. (1972), relating to classroom supply funds". As required by the state legal compliance audit program prescribed by the Office of the State Auditor, I have also performed procedures to test compliance with certain other state laws and regulations. However, providing an opinion on compliance with all state laws and regulations was not an objective of my audit and, accordingly, I do not express such an opinion.

The results of my procedures to test compliance with the requirements of Section 37-61-33(3)(a)(iii), Miss. Code Ann. (1972), disclosed no instances of noncompliance. The district reported \$18,710.11 classroom supply funds carried over from previous years.

Section 37-9-18(3)(b), Miss. Code Ann. (1972), states in part, "the auditor shall test to insure correct and appropriate coding at the function level. The audit must include a report showing the correct and appropriate functional level expenditure codes in expenditures by the school district."

The results of my procedures performed to test compliance with the requirements of Section 37-9-18(3)(b), Miss. Code Ann. (1972), disclosed no instances of noncompliance related to incorrect or inappropriate functional level expenditure coding.

As required by the state legal compliance audit program prescribed by the Office of the State Auditor, I have also performed procedures to test compliance with certain other state laws and regulations. However, providing an opinion on compliance with all state laws and regulations was not an objective of my audit and, accordingly, I do not express such an opinion.

The results of procedures performed to test compliance with certain other state laws and regulations and my audit of the financial statements disclosed no instances of noncompliance with other state laws and regulations.

This report is intended solely for the information and use of the school board and management, entities with accreditation overview, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.
